RE: Removal of 100' scenic easement in Rancho Cumbre, Greenwood.

Currently, a 100' scenic easement exists along the six properties that back up to Sliger Mine Road in and two properties at the end of Paseo Pinar. This easement was placed by the developers of Rancho Cumbre and is not a county-imposed easement. Therefore, we are told that it can only be removed at the request of the Association.

One of our homeowners has expressed an interest in building a garage on his property but their proposed building site would extend 30' into the easement. This homeowner has asked if we could abandon the easement to enable him to pull a permit for his garage.

In signing this document, the following homeowners declare that they have no objection to lifting the easement.
