Service Description: Cisco IronPort Platinum Support and Platinum Plus Support

This document describes Cisco IronPort's Platinum Support and Platinum Plus Support offerings ("Support").

Direct Sale from Cisco IronPort. If you have purchased these Support services directly from Cisco IronPort, this document is incorporated into your purchase agreement with Cisco IronPort.

Sale via Authorized Reseller. If you have purchased these Support services through an authorized reseller, this document is for description purposes only; and the contract, if any, governing the provision of the Support service will be the one between you and your authorized reseller. Your authorized reseller should provide this document to you, or you can obtain a copy of this service description at: www.cisco.com/legal/services.html.

Platinum / Platinum Plus Support - Summary

Cisco IronPort Platinum Support Overview: The Cisco IronPort Platinum Support Program provides a comprehensive array of support services to assist in the administration and maintenance of Cisco IronPort security products. Features are designed to meet the demands of global customers, who require acute attention for their mission-critical business solutions. Further detail is provided in [Table A](#) below.

Cisco IronPort Support Feature Summaries

Platinum Support:

- 24 x 7 x 365 Support for Priority 1 issues
- 24 x 5 Support for Priority 2-4 issues
- Ticket Management Options
- Cisco IronPort Customer Support Web Site at: <http://www.cisco.com/web/ironport/index.html>
- Hardware and Software Support

Platinum Plus Support includes all-of-the above plus:

- Preferential Ticket Handling
- Designated Customer Support Engineer
- Major Software Release Reviews
- Configuration Review

Support Case Management

- Appliance – Open a Support ticket directly via your Cisco IronPort Appliance
- Web - Manage tickets via the Cisco IronPort Support Portal: <http://www.cisco.com/cisco/web/support/index.html>
- Email - Email from registered administrator addresses to (support@ironport.com)

- Phone – Call Cisco IronPort's Global toll-free international phone numbers (see [Table B](#) below, or URL: <http://www.cisco.com/web/ironport/contacts.html>)

Support Obligations and Limitations

Cisco IronPort Responsibilities: Support services for customers with valid Platinum or Platinum Plus Support includes:

- Phone and Email Support services for problem diagnosis
 - Remote Diagnostics – Cisco IronPort Support Engineers have the ability to perform remote diagnostics via Support tunnels (initiated upon customer request)
- Efforts to cure reported and reproducible Errors in the Software.
- Software patches, updates, releases and new versions of commercially-released Software.
- Hardware Support - In the event of a critical hardware malfunction, Cisco provides field units and hot-swappable replacement parts with RMA installation and return instructions.

Customer Responsibilities: The provision of the Support services assumes that Customer will:

- Use reasonable efforts to resolve internally any support questions prior to requesting Support services
- Report Errors promptly in writing in English
- Provide sufficient information to allow Cisco IronPort to duplicate the circumstances indicating a reported Software defect or Error
- Promptly incorporate the bug fixes, patches, updates, upgrades, releases and new versions provided hereunder
- Provide all reasonable cooperation access and full information to Cisco IronPort with respect to Cisco IronPort's furnishing of Support hereunder
- Back-up configurations on a regularly scheduled basis since configurations are generally not recoverable from failed hardware. Cisco IronPort will not be responsible for configuration recovery in the event of a hardware failure.
- For hardware replacement Support – return defective or returned Products in accordance with RMA instructions, properly packaged, and within 60 days of RMA issuance
- For onsite Support – provide appropriate and safe work environment with reasonable access to physical work spaces
- For remote Support – provide reasonable access, at Customer's expense, to the Product through internet to establish a data communication link between Customer and the Cisco IronPort engineer and systems passwords so that problems may be diagnosed and, where possible, corrected remotely.

Cisco IronPort may obtain information regarding customer's email communication and web traffic and, as a condition to Cisco IronPort's provision of Support services to customer, Cisco IronPort may use statistical data generated regarding customer's email and web traffic to improve its offerings (neither the source nor content of the information underlying the data will be disclosed).

Support Limitations:

- Support on Software will be provided only on the most recent version of Software currently shipping to new customers or any other versions released in last year.
- Cisco IronPort has no obligation to provide Support and Maintenance obligations if:
 - The product was not used as specified by Cisco IronPort's specifications and Cisco IronPort reasonably believes that such use caused the Error;
 - The product software was altered, modified or corrected without Cisco IronPort's prior written consent; or
 - Another cause, within customer's control, caused the Error or a defect in the Product or Software.
- The term and associated fees for Cisco IronPort Platinum and Platinum Plus Support will be specific to customer's purchase of Support based on the then-current Cisco IronPort price book at time of purchase.

Hardware Assurance

Hardware Assurance Program Overview: Customers with valid Platinum or Platinum Plus Support coverage on their Cisco IronPort hardware may participate in Cisco IronPort's hardware assurance offering. Hardware assurance includes customer entitlement to hardware that supports the most current version of commercially available Software, subject to below conditions.

Cisco IronPort Responsibilities: If a new version of Software is delivered to customer as part of the Support offerings and such Software (as specifically licensed to customer) is incompatible with eligible Cisco IronPort hardware that customer is then utilizing to run the Software, or if Cisco IronPort discontinues Support on eligible hardware platform per publicly-announced Support End of Life schedules, Cisco IronPort will upgrade Customer's incompatible hardware to a newer hardware platform at no additional charge. Cisco IronPort may, in its sole discretion, determine (a) whether or not to create a new version or upgrade of Software, and (b) all parameters of potential hardware upgrade, including which replacement hardware platform will be offered (which may not necessarily be the most current platform) and timing of the hardware refresh.

Hardware Assurance Limitations:

- Customer must have current valid Platinum or Platinum Plus Support coverage on their Cisco IronPort hardware, and maintained such Support since original purchase (without lapse).
- Hardware assurance eligibility is limited to customers with x50 / x60 / x70 hardware platforms. Cisco IronPort reserves the right to terminate the Program as to any future hardware platforms.

- Only hardware that customer has purchased from Cisco IronPort or an authorized reseller (and not grey market gear) is eligible.
- Customers may receive, at Cisco IronPort's discretion, any of the following replacement hardware Products: C150 / C160 / C170 / C350 / C360 / C370 / C650 / C660 / C670 / S360 / S660 / S670 / M160 / M660 / M670 / X1050 / X1060 / X1070 / IEA (or newer, at Cisco IronPort's discretion).
- General provisions: customer's hardware Products that are used in production as well as spare units are eligible for inclusion; any remaining Support services term will automatically transfer to the refreshed hardware platform; any subsequent renewal of Support will be based on the refreshed hardware platform; and any refresh hardware units provided by Cisco IronPort may be used and/or refurbished units that are functionally equivalent to new units.

Terms Used

Error - means a failure of the Software to perform materially in accordance with the Documentation.

Documentation – means the user manuals and other written materials for the Products provided by Cisco IronPort.

Products – mean the Cisco IronPort hardware and software products, as made available to customers and published on Cisco IronPort's then current price list.

Software – means the software contained on the hardware Products in object code format. Any one-off modifications or enhancements offered to customer(s) as an accommodation shall not waive or diminish Cisco IronPort's right to determine, in its sole discretion, whether or not an enhancement constitutes an update or new product.

Severity Escalation

Priority 1 – Critical (operation stopped) – Product failure or problem with essential feature that results in an unacceptable user experience. Customer-acceptable workaround does not exist (service or service-level outage condition). Target response time of < 1hour

Priority 2 – Serious (operation restricted) – Service affecting, problem with valued feature/capability that precludes or otherwise materially adversely impacts its use. Customer-acceptable workaround exists. Target response time of 4 hours

Priority 3 – Important (workaround available) – Non-service affecting. Product is not performing and/or operating as specified; typically a problem affecting Product clarity, efficiency, performance against specifications, Documentation, etc. Either no workaround required or easy workaround exists. Target response time of 24 hours

Priority 4 – Request (information or new feature) – Non-service affecting. To-do items, such as tech notes, Q&As. Target response time of 24 hours.

TABLE A – Platinum and Platinum Plus Support Benefits Table

	Platinum Support	Platinum Plus Support
Support Requests		
Phone, Email & Web	24/7	24/7
Technical Support		
Office hours (critical and non-critical issues)	Monday 12 a.m. – Saturday 2 a.m. UTC/GMT Sunday 4 p.m. – Friday 6 p.m. PST	Monday 12 a.m. – Saturday 2 a.m. UTC/GMT Sunday 4 p.m. – Friday 6 p.m. PST

Designated Support Engineer(s)	No	Yes
Hardware & Software Support		
Upgrade notifications	Yes	Yes
Field upgrades	Yes	Yes
Major Software Release Reviews	No	Yes
Remote diagnostics	Yes	Yes
Hardware support including Advance Replacements*	Yes	Yes
Hardware Assurance	Yes	Yes
Emergency on-site support **	Targeted for next business day based on necessity on Hardware issues only	Targeted for next business day based on necessity on Hardware and Software issues
Periodic System Analysis and Appliance Monitoring	No	Yes
Online Resources		
Documentation	Yes	Yes
FAQ	Yes	Yes
Support Portal		
Ticket Management (open and update support cases)	Yes	Yes
Forums	Yes	Yes
Knowledge Base (Searchable)	Yes	Yes
Security Alerts	Yes	Yes
Forums	Yes	Yes

* Customer Support determines Advance Replacement eligibility. Shipments delivered to Customer's site the next business day by 10:30 am local time (second business day if shipped on Sunday or US holiday). This may vary for international shipments.

** Emergency on-site support may vary or be limited for non-US customers. Emergency on-site service requests may be denied if, in Cisco IronPort's good faith discretion, such emergency on-site service is not required to resolve customer's technical problem or if Customer has failed to perform any of its obligations.
