I am 60 years old . I have successfully raised 3 boys in this area coming from Orange County. My last boy is now 14, a freshman at Ponderosa. The nice friendly and farming nature of this county is why I raised them here. Distribution of marijuana near our childrens homes will eventually ruin what I came for.I live on 5 acres and would become concerned of neighbors who might persue this avenue. I would become increasingly frightened,even to the point of needing added protection. Think of the cost added to the sheriffs dept etc. How sad to allow the business to overtake the value of life in our county. Please don't let anyone cultivate or sell marijuana in our county. Sincerely Cathryn Whitfield. Placerville ca

If you want to help ruin El Dorado County...then vote to permit the growing of marijuana in El Dorado County. This will bring all kinds of criminals from other counties that have Supervisors standing up strong.

I urge you to have the courage to vote **not** to allow the growing of the marijuana in our county.

Thank you.

Carole V. McNeill

To: The El Dorado Board of Supervisors.

As a 27 year resident of El Dorado County I have enjoyed the semi-rural to rural atmosphere this county has to offer. I have seen some significant changes, not necessarily the best, occur over this time. Up to now this has all been manageable. However, I must raise my voice in protest to the expansion of the marijuana industry being welcomed to this county, simply because it is a source of revenue. My fear is that left unbridled and a foot in the door, we are inviting disaster into our community. This parasitic idea if put into practice will over come the host, albeit, El Dorado County. We need to be consistent with adjacent counties and not let this county be an avenue for the introduction of the drug culture and all that it brings.

Thank You,

—

Supervisor,

I understand that you are hearing the Marijuana issue on September 24th. I would like to add my two cents on this.

1. If marijuana is legalized it should be so as a pharmaceutical drug not as a recreational drug.
2. It should be grown in organized, tax paying, registered farms.
3. It should be distributed by licensed pharmacies.

For those folks who wish to use marijuana recreationally, they should have to publicly register as users and then obtain their drug from the pharmacy.

Lastly, I am not writing this as a Tea Party member but as a private citizen.

We are pleading for the Board of Supervisors to hold their ground on the final decision governing the outdoor cultivation and distribution of medical marijuana in El Dorado County. I support you and want ordinances to restrict this industry in the County. Please do not allow this dangerous and destructive industry to LEGALLY invade our community. My husband and I have first hand experience with one of the grow operations connected to a much wider grow coop organization. It causes good, law abiding people to live with, at least, great concern for their property, pets, and lives. The temporary ordinance is lenient enough for anyone that wants to grow for themselves.

Lois and Jim Fortress
