I strongly urge the El Dorado County Board of Supervisors to renew the County's advocacy contract with CASA El Dorado. Our local CASA does an exceptional job in ensuring that these local children obtain the help they need in becoming productive members of society. At the same time, the County saves a great deal of money it would otherwise have to spend on child welfare services.

It's not often that the County can obtain such a return on its investment, and I would hope that the Board acts unanimously to continue its support of CASA El Dorado.

Thank you

Henry Cavigli
