RECOMMENDATION: Staff recommends the Planning Commission take the following actions:

1. Determine that pursuant to the California Environmental Quality Act (CEQA) Guidelines Sections 15162 and 15164, there is no substantial evidence requiring the preparation of a Subsequent Mitigated Negative Declaration or an Addendum to the existing Mitigated Negative Declaration, adopted by the Board of Supervisors on September 25, 2007; and

2. Approve TM05-1403-E extending the expiration of the approved tentative subdivision map for six years to September 25, 2023, based on the Findings and subject to the original Conditions of Approval as presented.

BACKGROUND

The tentative subdivision map (TM05-1403) was approved by the Planning Commission on September 25, 2007, along with a rezone (Z05-0019). The approved subdivision consisted of 45 residential lots ranging in size from 7,910 sf and 97,641 sf (Exhibit F).

Since approval, the applicant has not filed or recorded a subdivision map. The tentative subdivision map had an original expiration date of September 25, 2017, as a result of recent state legislation including Subdivision Map Act (SMA) Sections 66452.21 (SB1185), 66452.22 (Assembly AB 333), 66452.23 (Assembly Bill AB 208) and 66452.24 (Assembly Bill AB 116) (Exhibit G). The applicant filed this time extension request on June 12, 2017.

ANALYSIS

Section 120.074.030 of the El Dorado County Subdivision Ordinance regulates the time extension of approved tentative subdivision maps. The ordinance limits the extension to a maximum of six one-year discretionary time extensions. Citing trouble in securing financing during the economic recession, the applicant has not finished satisfying the Conditions of Approval. The applicant is requesting the entire six one-year time extensions. Staff has reviewed the request and recommends the Planning Commission grant the requested six one-year time extensions, subject to the original Conditions of Approval and environmental mitigation measures. Given that there are no changes to the previously approved Tentative Map, the map maintains consistency with the applicable policies of the General Plan and provisions of the Zoning and Subdivision Ordinances. If approved, the map expiration would be extended to September 25, 2023.

ENVIRONMENTAL REVIEW

The Campobello Tentative Subdivision Map is a residential project that was analyzed in an adopted Mitigated Negative Declaration. The proposed time extension would allow the continued residential development of the project consistent with the approved tentative subdivision. The time extension does not make any changes to the original tentative map approval, does not involve new significant environmental effects, and does not increase the severity of previously identified significant effects. No new information that was not known and could not have been known at the time the Mitigated Negative Declaration was certified has since become available. Therefore, this tentative map time extension application is consistent with and is hereby exempt in accordance with CEQA Guideline Section 15162. No further environmental analysis is necessary.

The project is required to file a Notice of Determination. A \$50.00 filing fee shall be submitted to Planning Services.
