Item # 3

Planning Building Department

RE: 7325 Wentworth Sp. Rd.

Georgetown.

RE: A zoning Parcel Map submitted by Payer Millman & Engineering to construct several 5 acre parcels and larger to ten acres parcels.

We purchased the property after being advised the area was "open space" and would never be sold.

We ultimately were required to purchase right of way from BLM through Payer property. Payer purchased the property as open space for logging purposes and after having been that he wishes to cut it up to 3-10 acres.

What are the concerns of several more Septic Systems?

Please send a map of Payer plans for where his parcels will be located.

We envision a dramatic impact on our property!
