

**EL DORADO COUNTY DEVELOPMENT SERVICES  
PLANNING COMMISSION  
STAFF REPORT**

<b>Agenda of:</b>	February 12, 2009
<b>Item No.:</b>	10
<b>Staff:</b>	Peter Maurer

**FILE NUMBER:** A08-0013

**APPLICANT:** El Dorado County Sheriff

**REQUEST:** Amend Objective 6.1.1 and Policy 6.1.1.1 to incorporate the Local Hazard Mitigation Plan into the Public Health, Safety, and Noise Element of the General Plan

**ENVIRONMENTAL DOCUMENT:** Addendum prepared to the 2004 General Plan Environmental Impact Report (SCH #2001082030)

**SUMMARY RECOMMENDATION:** Adopt resolution to amend Objective 6.1.1. and Policy 6.1.1.1

**BACKGROUND**

In past disaster events, El Dorado County has been successful in receiving 100 percent reimbursement for disaster response costs and recovery projects. Over the course of the last few years, California and other states have seen a dramatic increase in the number of disaster events, each costing millions if not billions in some cases for jurisdictions to recover. With that in mind, state government officials have begun to take a very close look at why so many homes are destroyed, people injured or worse, and what action local jurisdictions are taking to correct the problem. What they found was that lessons learned from past disasters were not being included in General Plans and zoning ordinances as a means of preventing, and or mitigating future impacts from disaster events on new building and sub-divisions. To correct this problem and motivate local officials to take a proactive stance, AB 2140 was enacted and became law on January 1, 2007.

In order to maintain the 100 percent funding for disaster response, the County must comply with two elements of the bill:

- a. **Have a FEMA-approved Local Hazard Mitigation Plan (LHMP) that identifies potential disaster level events that can impact our county, and includes policies, objectives and measures for prevention and mitigation.**

The County adopted the plan on March 29, 2005. Amendments were made in May of that year updating EID's and the City of Placerville's responses to disasters. The plan has been approved by FEMA.

- b. **That the Board of Supervisors include by resolution the LHMP into the county's "Safety" Element of the General Plan.**

This action has not happened yet and therefore is the purpose of the action before you.

The LHMP is a large document that is posted on the Sheriff's Office web site. It can be downloaded and viewed by visiting their web site and looking up the following document:

[http://www.co.el-dorado.ca.us/sheriff/oes\\_mitigation\\_plan.pdf](http://www.co.el-dorado.ca.us/sheriff/oes_mitigation_plan.pdf)

## **STAFF ANALYSIS**

The Office of Emergency Services (OES) is responsible for responding to natural and man-made disasters, as well as preparing for such responses. Disasters may include wildfires, floods, avalanches, hazardous spills, and other events that threaten the lives and well-being of the County's residents. The LHMP is a multi-jurisdictional plan, serving also the cities of Placerville and South Lake Tahoe, as well as utilities in the county and the Office of Education.

Based on discussion with the State OES Mitigation Officer, in order for the County to comply with AB 2140, a resolution adopting the LHMP into the Safety Element of the local agencies General Plan must be adopted by the Board of Supervisors. Attached is a proposed resolution for that purpose. By taking no action, the County's funds for disaster response would be reduced to 75 percent of the costs of that response.

This state law also required that an analysis of critical public facilities be undertaken. While this study is nearly complete, SB 1764 modified the previous statute so that it is not required to be completed to meet the provisions of AB 2140. Staff proposes that the LHMP be adopted by reference into the General Plan with the following amendment to Objective 6.1.1 and Policy 6.1.1.1:

## **Public Health, Safety, and Noise Element**

### **GOAL 6.1: COORDINATION**

**A coordinated approach to hazard and disaster response planning.**

#### **OBJECTIVE 6.1.1: EL DORADO COUNTY OPERATIONAL AREA MULTI-JURISDICTIONAL LOCAL HAZARD EMERGENCY OPERATIONS FUNCTIONAL MITIGATION PLAN**

**The El Dorado County ~~Operational Area Multi-Jurisdictional Local Hazard Emergency Operations Functional Mitigation~~ Plan shall serve as the implementation program for this Goal.**

Policy 6.1.1.1      The El Dorado County ~~Operational Area Multi-jurisdictional Local Hazard Emergency Operations Functional Mitigation~~ Plan (LHMP) shall serve as the implementation program for the coordination of hazard planning and disaster response efforts within the County and is incorporated by reference into this Element. The County will ensure that the ~~El Dorado County Operational Area Multi-Hazard Emergency Operations Functional Plan~~ LHMP is updated on a regular basis to keep pace with the growing population.

#### **ENVIRONMENTAL REVIEW**

An addendum to the 2004 General Plan Environmental Impact Report has been prepared discussing whether the proposed amendment changes the impacts identified in that document and if any new impacts or mitigation measures have been identified. No new impacts or measures were identified, and the project is not a substantial change to the General Plan.

In addition to the impacts and mitigation measures discussed in the EIR, the plan also addresses storm drainage and geologic hazards, which were not identified as significant impacts in the EIR. The means by which these hazards are addressed in the LHMP is similar to and compatible with the General Plan.

#### **RECOMMENDATION**

Forward a recommendation to the Board of Supervisors to take the following action:

1. Approve the addendum to the 2004 General Plan EIR; and
2. Adopt the Resolution amending Objective 6.1.1 and Policy 6.1.1.1 of the Public Health, Safety, and Noise Element, based on the findings in Attachment 2.
