Subject Joe's Skate Park

Rusty, Helen, Jack, Ron & Norma,

On the agenda for tomorrows meeting is a discussion item regarding management options for Joe's Skate Park.

As you know, Cameron Park has had some recent issues regarding their skate park as well. One of the issues that came up was fighting at the skate park generating a video aired on youtube.

To get a perspective of what this was all about I went on line to youtube to see what was there. I was shocked with the amount of footage that is being posted on youtube showing fights at skate parks all over the country and world for that matter.

I would urge you to go online to www.youtube.com and type in "skate park fight" at their search prompt. The only way to get a view of the magnitude of the issue is to go online and watch.

I am not sure what is generating this phenomenon.

I would urge you to take a minute at view some of these clips and use that information to assist you in your discussion and decision regarding the management plan for Joe's Skate Park.

As a member of the Skate Park Advisory Committee, I hope you strongly consider a management plan that incorporates a level of supervision to some degree.

Thank you for your time,

Bill Mackay
