Dear El Dorado County Supervisors,

I wanted to express my support for making the trail use the highest priority on the SPTC corridor, WITHOUT condition. While certainly an excursion train would be an asset for the region it continues to support the notion that El Dorado County is nothing more than a place one goes for historical reference, recreation and entertainment. I am not advocating dismissing the train idea but I do question its viability and strongly support an idea that has been advancing incrementally for decades. Conditioning the trail would impede its implementation. It seems the trail linked to other trail networks as a regional asset is low hanging fruit. It is easily achievable by comparison and can generate a lot of support both locally, regionally and nationally as opposed to a private business venture.

Having great assets for our residents as well as visitors is a path to better community particularly as it relates to business attraction and retention. Certainly the many high tech companies that are currently located in Folsom as part of their site selection process took recreational assets into consideration. The economic leakage we experience as a county to Folsom and other communities has more to do with a commuting work force than anything. A focus on betterment of community with such things as a regional trail that will gain national attention can help serve as an attraction and reinforce the fact our county is a great place to live and work.

Again please consider support for making the trail use the highest priority on the SPTC corridor, WITHOUT condition.

Thank you and best regards,

Charles D. Downs, AIA  
President

ORIGINAL TRAIL RESOLUTION "A", WITHOUT JACK SWEENEY'S CHANGES AND ADDITIONS

Mike Dalforno

to:

bosfive

12/06/2010 01:15 PM

Show Details

*Dear Ms. Santiago,*

*It has come to my attention that you have changed your position and now support leaving the rails in place. This represents a 180\* turn in your previous position. I find your change disconcerting. A bike/multiuse trail such as is being proposed, and one that you apparently until recently were a proponent of, would receive tremendous use from the incredibly active citizens in our community. There are numerous stops for food/drink that would receive increased business revenue from this system of trails. These trails would be used every single day, by voting citizens from our community and from surrounding communities.*

*The American River multiuse trail system is renowned nationally. In fact, pro cyclists (such as Robbie Hunter) at the Amgen Tour of California commented that it was the "best cycling trail system" that they had ever witnessed. That is high praise indeed. The proposed El Dorado County multiuse trail system would be a continuation of this excellent community feature.*

*I urge you to reconsider your decision and return your support for a multiuse/bike trail. I am a registered voter and I do vote whenever I am eligible.*

*Sincerely,*

*Mike Dalforno*

I am AGAINST Jack Sweeney's changes to resolution A. I am a member of Team Revolutions, the Tea Party and Republican Women's group. Making a multiuse trail like the American River Trail would be a great boost to our county. Check out the rails to trails in Wisconsin; they are great.

I will work to unseat any of you that vote for an excursion train on those old rails.

Dearest Supervisors Knight, Nutting, Sweeny, Briggs, and Santiago:

Please vote for the ORIGINAL TRAILS RESOLUTION without condition. We want the Trails Resolution that will make the **Multi-use, class-one biking, hiking and equestrian trail a priority**. This trail would be the crown jewel of El Dorado County, especially when eventually linked with the Folsom trail. As a voting El Dorado County citizen, I want this trail for myself, my children and their grandchildren. It is important for our health and happiness to have trails to be active on with multiple use!! It too will bring money into our county. Please, please vote for the original trails resolution.

Thank you,

Kathleen Tresser

Dear Supervisor,

12/7/10

I am writing to implore you to vote to approve the use of the old El Dorado train line to be turned into more trails. Please vote for our ORIGINAL TRAILS RESOLUTION without condition.

My reasons are as follows:

I have worked as a primary care provider in Pediatrics and Internal Medicine in this county for 8 years. As I'm sure you are well aware, obesity is a serious health concern and is predicted to become much worse in the next several years. What is our best approach to this public health problem that affects our community? Certainly not medication though this will become inevitable. Healthy lifestyles is our best approach as I'm sure you realize. One has only to look at how popular the new section from Missouri Flat to Forni Rd has become. Many individuals, couples and families take advantage of this beautiful trail that is a result of your collective efforts. I believe it is quite simple that the more a community supports and provides opportunities for healthy exercise the more a community will use it. Healthy lifestyles also spread through communities as do colds, but the conditions have to be there to allow the spread of this healthy epidemic. The next section from Missouri Rd west is a beautiful section that I have run many times even in it's rugged condition. It will be as popular as it's predecessors', perhaps more so. Please show your support for the health and welfare of our community as clearly you have to this point. Please feel free to contact me if you wish.

Respectfully yours

John, Ray, Jack, Ron & Norma,

This excursion train is really not viable and as we know just an attempt for Placerville and Eastern ED County to get another leg of the bike trail built. Placerville and Eastern El Dorado County have had the last 5 bike trail projects as well as the the last three pedestrian bridges built in the County totalling millions in bike/ pedestrian trail infrastructure. The western slope should get the next bike trail project, this to me is just an attempt El Dorado Hills to get passed up again on our fair share of the infrastructure. This has got to stop. We need our share of the bike trail project as well as other much needed projects. We can show just by numbers the bike trail use would be 1000% more than what the bike trails through Placerville and the eastern part of the County are using. Especialy in the winter. There is a huge bike advocacy population here on the western slope that can support the justification fro more bike trails throughout the Western slope and connection to Folsom. It just makes sense.

Dear Ms Santiago,

I invite you to vote to support the Rails to Trails OPPORTUNITY in El Dorado County.  
As silly as it may be to have to request your support for what I believe is an obvious opportunity to do good, Rails to Trails is of greatest value when the rails are removed.  
During my years in the Marines, I assisted on Rails to Trails conversion in Spotsylvania , VA . Awesome project and outstanding good for the community.

I thank you for your support.

Lance Maguire
