Dear Supervisors,

I thought there was a good chance that the adoption of the new special district impact fee ordinance would have been continued for two weeks and accordingly thought I would have more time to gather my thoughts. I appreciate that your Board will give the special districts 120 days to negotiate an agreement with the County regarding the collection of these fees.

It is my opinion that:

-the indemnification language in the ordinance may be too onerous on the special districts,

-the elimination of the annual fee reexamination is a mistake, and

-the modification to the ordinance to allow for the levying of impact fees on building permits for new businesses is a mistake.

This new ordinance is your policy decision. I will assist the districts and your staff on the implementation of your policy direction.

Joe Harn
Auditor-Controller
El Dorado County
