The El Dorado County Commission on Aging (COA) is an advisory committee designated by the Board of Supervisors to report on the aging population's community interests and concerns. Our mission is to ensure that older adults and caregivers, especially the frail and vulnerable, have access to services that support independence and well-being.

As the COA, we have an essential role in working with and advising the Area Agency on Aging (AAA), a federal and state-mandated department under the El Dorado County Health and Human Services Agency. The AAA provides supportive services such as the Family Caregiver Support Program, Senior Legal Services, and Senior Nutrition Home Delivered Meal Program to those 60 years and older, regardless of their income.

The COA Outreach Committee has established goals to ensure that older adults in our county know of these AAA services, provide guidance on accessing them, and find opportunities to hear communities' concerns to ensure that the services offered align with their needs, along with identifying and aligning with other community advocate groups or individuals supporting the aging population.

Given your organization's outreach capabilities, we would like to work with you to find ways to share information about senior programs and services and learn about your community's concerns. Such a partnership will benefit our seniors and those families caring for our older adults.

We would love to meet with you to discuss ways to share this information directly. You can call us by calling _____ at _____.

We are excited to hear from you soon.
