Dear Mr Nutting:

The article in Wednesday's paper about the Veterans Memorial included a quotation from you , "Rich told me he is packing the meeting room".I have never spoken to you on this issue of what may take place on the 23rd.

Additionally your statement , "the issue has suffered from inaction for three years," is inaccurate . Tom purchased a bench through the Community Foundation with a donation in 2005. Shortly after he left El Dorado County and we did not hear from him until February 2009, finally coming to a decision as to what he wanted on his bench in July of the same year . The engraver has informed us that over 20 hours of staff time was expended on Tom. The bench was schedule to be engraved on site before Veteran's Day 2009.
