RE: Response to 13383 Order to Submit Method to Comply with Statewide Trash Provisions

Dear Ms. Kouyoumdjian:

On June 2, 2017 El Dorado County (County) received a Water Code 13383 Order from the Lahontan Regional Water Quality Control Board (LRWQCB) to submit our method to comply with the statewide Trash Provisions. The County is a permittee under the LRWQCB Order No. R6T-2017-0010, National Pollutant Discharge Elimination System (NPDES) No. CAG616001.

In response to that Order, the County selects Track 2 as its preferred compliance option. The County understands that, if in the future Track 2 cannot be fully implemented, the County may change to Track 1 provided the necessary corresponding information is submitted.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Please contact the County's Stormwater Program Manager, Brendan Ferry, with any questions at (530) 573-7905.

Sincerely,

Roger Trout
Planning & Building Department Director
