Inflows

Summary Information and Inflow Methodology

Questions on methods used to determine inflow tons at your facility and why inflow tons reported from other facilities were changed.

Method(s) Used To Determine Tons Received

- Measurement methods using scales
 - Track material weight using certified scales.
- Exceptions – Measurement methods allowed by regulations without using scales
 - I record self-haul loads by volume and estimate disposal tonnages using volume to weight conversion factors.

Summary of Total Inflow Tons Accepted for All Material Streams

Category	Tons Accepted by Your Facility
Tons Accepted from Transfer/Processors	0.00
Tons Accepted from Direct Haul	24,219.15
Total Tons Accepted	24,219.15

Inflow Streams Accepted from Transfer/Processors

Material Accepted at Your Facility from Transfer/Processors (that reported in RDRS)

Organization/Site	Reporting Entity Name (RDRS #)	Material Stream	Material Type	Tons Sent to You (as reported by senders)	Tons Accepted by Your Facility	Approval Status
There are no inflows.						
Total				0.00	0.00	

Material Accepted from Transfer/Processors Who Are Not Listed Above

Organization/Site	Reporting Entity Name (RDRS #)	Material Stream	Material Type	Tons Accepted by Your Facility
There are no inflows.				
Total				0.00

Inflow Streams Accepted from Direct Haul

Total Material Accepted from Direct Haul at Your Facility (Includes Processing Residuals)

Material Stream	Material Type	Tons Accepted by Your Facility
-----------------	---------------	--------------------------------

Solid Waste for Disposal	N/A	24,219.15
Total		24,219.15

Outflows

Outflow Streams Sent

- Non-Green Material for Potential Beneficial Reuse
- Recycling/Composting
- Solid Waste for Disposal

Outflow Summary

	Tons
Solid Waste Disposal	
Total Inflow of Solid Waste Disposal	24,219.15
Outflow of Solid Waste for Disposal	(24,219.15)
Remaining Solid Waste Available for Outflow	0.00
Disaster Debris Disposal	
Total Inflow of Disaster Debris	0.00
Outflow of Disaster Debris for Disposal	(0.00)
Remaining Disaster Debris Available for Outflow	0.00
Designated Waste Disposal	
Total Inflow of Designated Waste	0.00
Outflow of Designated Waste for Disposal	(0.00)
Remaining Designated Waste Available for Outflow	0.00
Green Material for Potential Beneficial Reuse	
Total Inflow of Green Material for Potential Beneficial Reuse	0.00
Outflow of Green Material for Potential Beneficial Reuse	(0.00)
Remaining Green Material for Potential Beneficial Reuse Available for Outflow	0.00
Non-Green Material for Potential Beneficial Reuse	
Total Inflow of Non-Green Material for Potential Beneficial Reuse	0.00
Outflow of Non-Green Material for Potential Beneficial Reuse	(574.17)
Remaining Non-Green Material for Potential Beneficial Reuse Available for Outflow	-574.17
Recycling/Composting	
Total Outflow of Materials to Recycling/Composting Facilities	10,277.82
End Use	
Total Outflow of Materials to End Use	0.00
Brokering/Transporting	
Total Outflow of Materials to Transporters/Brokers	0.00

Outflow Methodology

Questions on how outflow tons are determined and jurisdiction of origin is tracked.

Method(s) Used To Determine Tons Sent

- Track outflow amounts based on my own measurements of the following:
 - Track material weight using my own certified scales
- Rely on the receiving facility to provide outflow amounts based on the facilities measurement of tons using the following methods:
 - Track material weight using facility certified scales

Method(s) Used To Determine Jurisdiction Of Origin For Direct Haul Material (msw) Or Green Material Potential Beneficial Reuse From Direct Haul

- Standard methods for each load of material accepted
 - Ask jurisdiction of origin at the gate at the time of delivery for each hauler/person bringing materials

Outflow Detail by Material Stream

Non-Green Material for Potential Beneficial Reuse

Organization/Site	Reporting Entity Name (RDRS #)	Tons Sent	Material Type(s)
Potrero Hills Landfill, Inc.	Potrero Hills Landfill, Inc (RD10775)	574.17	Processed Construction and Demolition Wastes and Materials
Total		574.17	

Recycling/Composting

Organization/Site	Reporting Entity Name (RDRS #)	Region (Country, State, Tribal Land)	Tons Sent	Material Type(s)
Ukiah Waste Solutions	Pacific Recycling Solutions (RD10007)		4,635.23	Mixed Recyclables
MIngs Recycling	MIngs Recycling - Transfer/Processor (RD13029)		34.06	Beverage Cans
MIngs Recycling	MIngs Recycling - Transfer/Processor (RD13029)		24.76	Bottles
Strategic Materials - Commerce	Strategic Materials -Commerce (RD12533)		52.40	Mixed Glass
Schnitzer Steel Industries, Inc.	Schnitzer Steel Industries, Inc. (RD10935)		525.97	Other Nonferrous Metal - mixed metals
International Paper Recycling - West Sacramento	Recycler of recovered fiber (RD10435)		47.44	Uncoated Corrugated Cardboard

California Carpet Stewardship Program (CARE)	California Carpet Stewardship Program (CARE) (RD12614)		15.18	Carpet
Crumb Rubber Manufacturers	Crumb Rubber Manufacturers - Recycler/Composter (RD13412)		18.97	Whole Tires
CEWS	CEWS - Recycler/Composter (RD12775)		46.93	Consumer Electronic Equipment
Lopez AG Services	Lopez AG Services - Recycler/Composter (RD11865)		105.85	Green Waste
County of Yolo	Yolo County Anaerobic Composter Cells (RD12535)		4,766.49	Mixed Organics
California Electronic Assets Recovery (CEAR)	California Electronic Assets Recovery (CEAR) - Transfer/Processor (RD12812)		4.54	Consumer Electronic Equipment
Total			10,277.82	

Solid Waste for Disposal

Organization/Site	Reporting Entity Name (RDRS #)	Tons Sent	Material Type(s)
Potrero Hills Landfill, Inc.	Potrero Hills Landfill, Inc (RD10775)	12,884.92	Mixed Solid Waste
Forward Landfill	Forward Landfill (RD11122)	11,188.92	Mixed Solid Waste
California Waste Recovery Systems Double Springs	Cal Waste Toyon Medium Volume T/S (RD10893)	145.31	Mixed Solid Waste
Total		24,219.15	

Solid Waste Disposal Allocations

Complete the Following Only If You Changed the Default Allocation Of Tons Of Solid Waste (e.g., Actual Tons And Actual Percentages Were Modified): If You Modified the Defaults, Please Click the Edit Button To Provide Your Reason(s) For Doing So.

- Not answered yet.

Total Material Sent from Direct Haul and Transfer/Processors Based on Inflow

Total Sent to Solid Waste for Disposal
24,219.15

Total Material Received from Transfer/Processors Sent to Disposal Facilities and/or Transfer/Processors

Tons	Percentage
0.00	0.00

Total Material Received from Direct Haul Sent to Disposal Facilities and/or Transfer/Processors

Green Material Potential Beneficial Reuse Origins

Complete the Following Only If You Changed the Default Jurisdiction Tons Of Green Material For Potential Beneficial Reuse (e.g., Actual Tons Sent To Each Destination From Each Jurisdiction Were Modified): If You Modified the Defaults, Please Click the Edit Button To Provide Your Reason(s) For Doing So.

- Not answered yet.

Direct Haul Green Material Potential Beneficial Reuse Origins Accepted

Total Direct Haul Green Material Potential Beneficial Reuse Inflow Tons
0.00

Jurisdiction of Origin	Host Assigned	State, Country or Tribal Land	Tons Accepted	Percentage Accepted
There are no direct hauled green material potential beneficial reuse origins.				
Total			0.00	0.00

Green Material Potential Beneficial Reuse Allocation by Destination for Direct Haul

Organization/Site	Reporting Entity Activity (RDRS #)	Tons Sent	Tons Sent Percentage
There are no green material potential beneficial reuse allocations.			
Total		0.00	0.00

Green Material Potential Beneficial Reuse Origins Destination and Material Sent

Jurisdiction of Origin	Host Assigned	State, Country or Tribal Land	Estimated Tons Sent	Estimated Percentage Sent	Actual Tons Sent	Actual Percentage Sent	Status
There are no green material potential beneficial reuse origin destinations.							
Total			0.00	0.00	0.00	0.00	

Source Sector

Source Sector for Solid Waste Sent

Methodology Used

- Asking all incoming loads if they are bringing waste from residential routes, commercial routes or as a self-hauler

Total Sent to Disposal from Direct Haul:
24,219.15

Source Sector	Tons Sent	Percentage
Commercial	5,148.60	21.26
Residential	10,839.26	44.75
Self-Haul	8,231.29	33.99
Total	24,219.15	100.00

Organics Measurement

Mixed Waste Organic Collection Stream(s)

Question	Answer
Does your reporting entity receive one or more mixed waste organic collection streams?	No

Source Separated Organic Waste Collection Stream(s)

Question	Answer
Does your reporting entity receive one or more source separated organic waste collection streams?	Yes

Report the sum for the quarter:

Question	Answer	Notes For 0 Entry
Total incoming weight of source separated organic waste collection streams (tons):	4,766.49	
Total outgoing weight of all material recovered from source separated organic waste collection streams (sent out for end use, recovery, and further processing) (tons):	4,766.49	
Total outgoing weight of all material sent to disposal (as defined in the SB 1383 regulations, 18983.1) from source separated organic waste collection streams (tons):	0.00	We direct haul material to a compost facility (YOLO Landfill) that processes the material and removes any incompatibles.

Report the sum for the ten-day measurement period:

Question	Answer	Notes For 0 Entry
Outgoing weight of organic waste recovered from source separated organic waste collection streams (sent out for end use, recovery, and further processing) (tons):	626.17	
Outgoing weight of organic waste from source separated organic waste collection streams sent for disposal (as defined in the SB 1383 regulations, 18983.1) (tons):	0.00	We direct haul material to a compost facility (YOLO Landfill) that processes the material and removes any incompatibles.
Did this facility use an Alternative Measurement Protocol to implement the 10-day evaluation?	No	

Gray Container Collection Stream(s)

Question	Answer	Notes For 0 Entry
Does your reporting entity receive more than 500 tons of material from the gray container collection stream from at least one jurisdiction annually?	Yes	
Report the percentage of remnant organic waste in the gray container waste evaluation sample performed by your reporting entity this quarter:	18.47	
Did this facility use an Alternative Measurement Protocol to implement the evaluation?	No	

Composting or In-Vessel Digestion Operations

Question	Answer	Notes For 0 Entry
Does your reporting entity have at least one dependent composting and/or in-vessel digestion operation on site that is active and required to report?	No	

Review Flags

Review and Submit Status (Flags generated and reviewed)

Severity	Status	Source	Type	Description
Correction Required	Closed	Disposal Origins	Total Direct Haul Tons accepted in the origins tab does not equal the total direct hauled disposal inflow tons	The total solid waste for disposal tons accepted entered in the Direct Hauled Origins tab does not match the Total Direct Hauled solid waste for disposal tons reported in Inflows. Please correct this so that the tons accepted matches the tons reported in Inflows.
Correction Required	Closed	Disposal Origins	Disposal tons sent to a facility do not match between the Disposal Origins and Disposal Allocations tabs.	Within the Disposal Origins tab, the tons sent to each destination facility within one or more jurisdictions were modified so that the total tons sent to Potrero Hills Landfill, Inc (RD10775) according to the Disposal Origins tab did not match the total tons sent to that facility – that were from direct haul – according to the Disposal Allocations tab. To correct this error, go to the Disposal Origins tab, Click Review, click Destination Details, and then modify the jurisdiction tons sent values for each jurisdiction and destination facility such that the total tonnage sent to each facility matches the direct haul value reported for each destination facility on the Disposal Allocations tab.
Correction Required	Closed	Disposal Origins	Disposal tons sent to a facility do not match between the Disposal Origins and Disposal Allocations tabs.	Within the Disposal Origins tab, the tons sent to each destination facility within one or more jurisdictions were modified so that the total tons sent to Cal Waste Toyon Medium Volume T/S (RD10893) according to the Disposal Origins tab did not match the total tons sent to that facility – that were from direct haul – according to the Disposal Allocations tab. To correct this error, go to the Disposal Origins tab, Click Review, click Destination Details, and then modify the jurisdiction tons sent values for each jurisdiction and destination facility such that the total tonnage sent to each facility matches the direct haul value reported for each destination facility on the Disposal Allocations tab.
Correction Required	Closed	Disposal Origins	Disposal tons sent to a facility do not match between the Disposal Origins and Disposal Allocations tabs.	Within the Disposal Origins tab, the tons sent to each destination facility within one or more jurisdictions were modified so that the total tons sent to Forward Landfill (RD11122) according to the Disposal Origins tab did not match the total tons sent to that facility – that were from direct haul – according to the Disposal Allocations tab. To correct this error, go to the Disposal Origins tab, Click Review, click Destination Details, and then modify the jurisdiction tons sent values for each jurisdiction and destination facility such that the total tonnage sent to each facility matches the direct haul value reported for each destination facility on the Disposal Allocations tab.

Correction Required	Closed	Disposal Origins	Information for a host assigned record was not added.	A host assigned jurisdiction record was added in the direct hauled origins tab but no information was entered about the host assigned tons Please enter the information about the host assigned record.
Correction Required	Closed	Source Sectors	Questions on the methodology used to capture source sector for direct haul solid waste were not completed.	Your facility is required to complete the source sector methodology questions on how you track source sector because you have direct haul solid waste disposal inflow and outflow. On the source sector tab Select Edit and select one or more methodology question check marks on how you track and assign source sector.
Correction Required	Closed	Disposal Origins	The total destination tons for a jurisdiction does not match the actual destination tons for that jurisdiction determined in the origins review screen.	The total destination tons sent for Placerville does not match estimated total tons sent for Placerville. Please correct the destination records for Placerville so that the Total tons sent equals the estimated tons sent by Placerville.
Correction Required	Closed	Disposal Origins	The total destination tons for a jurisdiction does not match the actual destination tons for that jurisdiction determined in the origins review screen.	The total destination tons sent for El Dorado-Unincorporated does not match estimated total tons sent for El Dorado-Unincorporated. Please correct the destination records for El Dorado-Unincorporated so that the Total tons sent equals the estimated tons sent by El Dorado-Unincorporated.
Correction Required	Closed	Disposal Origins	Total Actual tons sent does not equal total tons sent in the Outflow by destination for direct haul table.	The total actual tons sent for direct hauled origin solid waste in the Direct Hauled Origin and Material sent table does not equal the Estimated total tons sent from direct haul. The actual tons must match the estimated tons of direct haul sent since the estimated value is the portion of direct haul material sent out to the destinations reported in Outflows. Please correct the actual tons sent by jurisdictions so that the Total actual tons match the estimated total tons sent from direct haul.
Correction Required	Closed	Disposal Allocations	The total allocation of disposal sent to a destination facility does not equal 100%.	On the Disposal Allocations tab, the tons sent to destination facility Potrero Hills Landfill, Inc (RD10775) were modified such that the total "Actual Percentage" sent to Potrero Hills Landfill, Inc (RD10775) was not 100%. Please change the values entered into the "Actual Percentage" or "Actual Tons" columns for destination facility Potrero Hills Landfill, Inc (RD10775) so that the total "Actual Percentage" sent to Potrero Hills Landfill, Inc (RD10775) is 100%.
Correction Required	Closed	Disposal Allocations	The total allocation of disposal sent to a destination facility does not equal 100%.	On the Disposal Allocations tab, the tons sent to destination facility Cal Waste Toyon Medium Volume T/S (RD10893) were modified such that the total "Actual Percentage" sent to Cal Waste Toyon Medium Volume T/S (RD10893) was not 100%. Please change the values entered into the "Actual Percentage" or "Actual Tons"

				columns for destination facility Cal Waste Toyon Medium Volume T/S (RD10893) so that the total "Actual Percentage" sent to Cal Waste Toyon Medium Volume T/S (RD10893) is 100%.
Correction Required	Closed	Disposal Allocations	The total allocation of disposal sent to a destination facility does not equal 100%.	On the Disposal Allocations tab, the tons sent to destination facility Forward Landfill (RD11122) were modified such that the total "Actual Percentage" sent to Forward Landfill (RD11122) was not 100%. Please change the values entered into the "Actual Percentage" or "Actual Tons" columns for destination facility Forward Landfill (RD11122) so that the total "Actual Percentage" sent to Forward Landfill (RD11122) is 100%.
Correction Required	Closed	Disposal Allocations	Some sent to disposal destination allocations were not accepted and/or modified.	Each sent to destination facility in the Allocations tab requires that each record for material received and sent out must be accepted or modified. One or more records has not been accepted or modified. Please review the allocations page and accept or modify all records for material sent.
Correction Required	Closed	Disposal Origins	One or more records in the Direct Hauled Origins Destination and Material sent table have not been accepted and/or modified.	One or more jurisdiction records in the Direct Hauled Origins Destination and Material sent table have not been accepted and/or modified. Please review the accepted/modified column and accept or modify any jurisdiction material sent records that do not have an accepted or modified status.
Correction Required	Closed	Disposal Allocations	The default disposal tons sent to destinations were changed in the allocation section but questions asking why tons were changed were not answered.	On the Allocations tab, you changed one or more of the actual tons sent for disposal to a destination from the estimated tons based on inflows but did not answer the questions asking why you changed the default values. Select Edit at the top of the page to answer the questions on why you changed the default allocation values.
