Bids shall be evaluated by determined low material cost, plus total costs to County for hauling. Hauling costs will be determined by using the round trip hauling rate of \$1.67 per mile and assuming an average load size of 4 tons.

Example: 50 mile round trip with average load size of 10 tons per load

50 miles X 1.67 per mile = \$83.50 per round trip/load
500 tons (estimated annual) / 10 tons per load = 50 loads
Hauling Costs: \$83.50 per trip/load X 50 = \$4,175.00
