## CODE ENFORCEMENT OFFICER I/II

### DEFINITION

Under immediate or general supervision, enforces state and local zoning and building codes through research, investigation, inspection, and follow up activities, including issuing administrative citations and hearing or court appearances; communicates with the public regarding code compliance and enforcement; and performs related duties as assigned.

### SUPERVISION RECEIVED AND EXERCISED

Receives immediate or general supervision from the Code Enforcement Supervisor. Exercises no direct supervision over staff.

### CLASS CHARACTERISTICS

*Code Enforcement Officer I:* This is the entry-level classification in the Code Enforcement class series. Initially under close supervision, incumbents perform routine inspections while learning the more complex codes and regulations. As experience is gained, assignments become more varied, complex, and difficult; close supervision and frequent review of work lessen as an incumbent demonstrates skill to perform the work independently. Positions at this level usually perform most of the duties required of the positions at the II-level, but are not expected to function at the same skill level and usually exercise less independent discretion and judgment in matters related to work procedures and methods. Work is usually supervised while in progress and fits an established structure or pattern. Exceptions or changes in procedures are explained in detail as they arise.

*Code Enforcement Officer II:* This is the fully qualified journey-level classification in the Code Enforcement class series. Positions at this level are distinguished from the I-level by the performance of the full range of duties as assigned, working independently, and exercising judgment and initiative. Positions at this level receive only occasional instruction or assistance as new or unusual situations arise and are fully aware of the operating procedures and policies of the work unit.

This class is distinguished from the Code Enforcement Supervisor in that the latter is a full, first-level supervisor and oversees the day-to-day operations of the unit; provides training to and work review of code enforcement staff; and handles more complex inspections or code enforcement cases and projects.

Positions in the Code Enforcement class series are flexibly staffed and positions at the II-level are normally filled by advancement from the I-level, after gaining the knowledge, skill, and experience which meet the qualifications for and after demonstrating the ability to perform the work of the higher-level class.
