DRAFT OF CLOSING STATEMENT
August 13, 2015 @8:30am Hearing
2850 Fairlane Court, Placerville 95667

"We are standing up as a united community for justice, and our liberty to have peace of mind and security in our neighborhood.

You, the planning commission, have read our supporting documentation that was provided to you days and weeks before this hearing.

Our closing points are:

1) The proposed building of this cell tower complex is inflicting needless pain and suffering on our community.

2) The proposed building of this cell tower complex creates a dangerous situation that could endanger human lives. If the cell tower falls, as it could easily get struck by lightning at this elevation, it would create a forest fire risk and lock our community in at the top of a dead-end road.

MOSQUITO ONE EYE CREEK ROAD

In conclusion,

We, for the better part of two decades have created the best for our family and friends by creating a safe and beautiful community at the top of One Eye Creek Road Hill.

The perpetrator of this cruel act of indifference to community matters, a business owner and absentee landowner, has contributed nothing to the betterment of this community. He is now instrumental in terrorizing it. We are asking him to revoke his application for rental monies from Verizon.

We are not against progress. We are demanding that the 22nd largest company in the United States of America utilize its resources to find a solution that does not inflict the above-mentioned acts of cruelty.

We know that you are required by law to process this application. Knowing what you know, we are now asking you, PLEASE to stamp this application D-E-N-I-E-D.

Thank you.

Respectfully yours,

Upper One Eye Creek Road Association
