I'm a resident of South Lake Tahoe and a very active senior. I've recently heard some discussion regarding the idea of incorporating a separate space for seniors in our new recreation center.

I cannot possibly be more opposed to this idea and am strongly in favor of a multigenerational facility. The seniors I recreate with today don't want to be cut apart from younger participants. We enjoy getting to know them through pickleball play, for example, and I sincerely believe we help inspire them by knowing that being a senior is not the end of the road. In a world where "inclusion" is endemic, please include that thinking with our new recreation center.

I strongly urge you to make our exciting new facility multigenerational.

I'm an active senior and a long-time South Lake Tahoe local. Recently, I heard discussion about the possibility of making a separate space for seniors in our new recreation center.

I cannot possibly be more opposed to that idea. I strongly feel that we seniors get a lot out of playing with and working out with younger people. I also believe that they get a lot out of being with today's seniors. I believe we inspire them and let them know that having a few wrinkles and grey hair aren't the end of the road.

In a world where the word "Inclusion" is endemic, I urge you to include seniors in a multigenerational facility and to forget the very idea of separating us.

James F. Barr  
South Lake Tahoe

RE: Support for the multi-generational recreation center and aquatics complex in South Lake Tahoe

Dear Ms. Dawson

I am a South Lake Tahoe Senior Citizen writing to voice my support for the multi-generational concept for the new South Lake Tahoe Recreation and Aquatics Complex. The concept of integrating Senior Nutrition services, support services, senior fitness, social, and recreational programs into a multi-generational, modern, safe, and supervised facility is desirable. The current facility isolates seniors and the lack of qualified City or County staff in the building during senior programs creates an unsafe environment and limits access. Integrating senior programs within the new facility will promote inclusion and inspire a sense of community with all user groups and create a much healthier environment for seniors to experience.

Please support the City's plan to construct the new multi-generational recreation and aquatics center on the 56 acres site as identified in the January 14, 2020 resolution unanimously adopted by City and County Council's.

Sincerely,

Marianne Poohachoff

I ran the Bingo program for 11 years and also the Saturday Night Bingo at SFT Senior Center. It became a very successful program and all that attended are looking forward to participating in the programs at the new recreation complex.

RE: Support for the multi-generational recreation center and aquatics complex in South Lake Tahoe

Dear Mr. Ashton and Ms Dawson,

I am a former City Council member, Mayor of South Lake Tahoe who was a leader in creating, endorsing and passing the legislation, Measure P, providing funding for the multi-generational concept for the new South Lake Tahoe Recreation and Aquatics Complex.

The concept of integrating Senior Nutrition services, support services, senior fitness, social, and recreational programs into a multi-generational, modern, safe, and supervised facility is desirable. The current facility isolates seniors and the lack of qualified City or County staff in the building during senior programs creates an unsafe environment and limits access. Integrating senior programs within the new facility will promote inclusion and inspire a sense of community with all user groups and create a much healthier environment for seniors to experience.

Please support the City's plan to construct the new multi-generational recreation and aquatics center on the 56 acres site as identified in the January 14, 2020 resolution unanimously adopted by City and County Council.

This is a long awaited need, desire and dream for our community and our seniors.

Sincerely,

Wendy David

South Lake Tahoe, City Council, 2014-18
