ADM25-0020 Bailey Ag Setback Relief Administrative relief from agricultural setback to construct a new pool. Assessor's Parcel Number: 060-200-038

During the Agricultural Commission's regularly scheduled in person and ZOOM meeting held on May 14, 2025, a request for an administrative relief from the required 200-foot agricultural setback for the above-referenced project was presented to the Agricultural Commission from the Planning Commission. This request is for the construction of a new swimming pool adjacent to the existing property owner's residence, 5.3 acres, zoned Rural Lands (RL-10). The proposed building site is one hundred six feet (106') from the southwestern property corner adjacent to a parcel; APN 060-220-020, that is 10 acres and zoned Limited Agricultural 10-acre minimum (LA-10). The adjacent parcel is located within an agricultural district.

Parcel Description:

- Parcel Number and Acreage: 060-200-038, 5.3 Acres
- Agricultural District: Yes
- Land Use Designation: Rural Residential, RR
- Zoning: Rural Lands – 10 Acres, RL-10
- Choice Soils: Josephine silt loam (JtD), Mariposa gravelly silt loam (MaD)

Discussion:

A site visit was conducted on April 25, 2025 to assess the placement of the proposed pool.

Staff Findings:

Staff recommends APPROVAL of the request for the construction of a new pool no less than 100' from the property line with APN:060-220-020. For this request staff believes that three of the four findings that the Agricultural Commission is required to make by Resolution No. 079-2007 and adopted by the Board of Supervisors on April 17, 2007, can be made:

- a) No suitable building site exists on the subject parcel except within the required setback due, but not limited to, compliance with other requirements of the General Plan or other County development regulations;

The subject parcel is constrained for building sites due to topography and existing structures.

- b) The proposed non-compatible structure will be located on the property to reasonably minimize the potential negative impact on adjacent agriculturally zoned land;

The impact on agriculture is limited by the site for the pool being near the existing structures and main driveway.

- c) Based on the site characteristics of the subject parcel and the adjacent agriculturally zoned land including, but not limited to, topography and location of agricultural improvements, etc., the Commission determines that the location of the proposed non-compatible structure would reasonably minimize potential

negative impacts on agricultural or timber production use;

The proposed site for the pool is near the existing structures limiting the impact on adjacent agriculturally zoned land. In addition the planned site is an area of non-choice soils. The proposed site for the pool is in an area of the parcel that contains Serpentine rock land (SaF) soil.

d) There is currently no agricultural activity on the agriculturally zoned parcel adjacent to the subject parcel and the Commission determines that the conversion to a low or high intensive farming operation is not likely to take place due to the soil and/or topographic characteristics of the adjacent agriculturally zoned parcel or because the General Plan Land Use Designation of the surrounding or adjacent parcels is not agricultural (e.g. Light/Medium/High Density Residential).

Staff also recommends that the applicant comply with Resolution No. 079-2007 Exhibit A of the Board of Supervisors pertaining to the adoption of the Criteria and Procedures for Administrative Relief from Agricultural Setbacks. Section B.5 requires the following action by the applicant: In all cases, if a reduction in the agricultural setback is granted for a non-compatible use/structure, prior to the issuance of a building permit, a Notice of Restriction must be recorded identifying that the non-compatible use/structure is constructed within an agricultural setback and that the owner of the parcel granted the reduction in the agricultural setback acknowledges and accepts responsibility for the risks associated with building a non-compatible use/structure within the setback. If the Agricultural Commission cannot make the required findings in Resolution No. 079-2007, an application may be made to the Board of Supervisors for administrative relief. Such relief may be granted by the Board of Supervisors upon a determination by the Board taking all relevant facts into consideration that the public interest is served by the granting of the relief. Such applications shall be made to the Development Services Department and a recommendation made to the Board of Supervisors.

Chair Boeger brought the item back to the Commission for discussion. Rebecca Leisher, from the Planning Department was available for questions. The applicant was not present and two public comments were received in the Board room or by zoom listeners. It was moved by Commissioner Mansfield and seconded by Commissioner Neilsen to recommend APPROVAL of the request to construct a new pool no less than 100' from the property line with APN:060-220-020. For this request staff believes that three of the four findings that the Agricultural Commission is required to make by Resolution No. 079-2007 and adopted by the Board of Supervisors on April 17, 2007, can be made.
