Report Suspicious

Dear Supervisor Parlin,

We are Rescue residents that live 2920 Martel Creek Road in Rescue CA. My husband and I have had to evacuate 2 times in the last 12 months due to fire danger. The latest threat was very close to our home with little time to evacuate. If these projects are approved to move forward we fear for our safety in the event of fire evacuation. In addition Deer Valley's narrow evacuation roads are problematic.

We are requesting you deny these permits outright and stand up for our community.

We understand legal threats are a way to sway your judgment, but be assured we will also bring litigation to this matter.

Thank you for your support and consideration.

Dan & Gay Clayson

Public Comment - Unsafe Developments off Deer Valley Road

Report Suspicious

Dear Members of the Board of Supervisors,

I am writing to express my continued and strong opposition to the proposed commercial developments by HomeCA/Native Directions off Deer Valley Road.

First, I would like to personally thank Supervisor Parlin for standing firm on this matter and for your continued efforts to ensure these unsafe plans are not built. Your dedication to our community is greatly appreciated.

I urge the entire Board to remember that **community safety must always come first**.

These centralized facilities do not fit in our community. As stated in the law, such facilities should be community-based, not facilities that rely on relocating vulnerable people from across the state into a high-risk, non-centralized location. The retaining of a SF law firm by the opposition just underscores what this appears to be: an effort for the state and its allies to run roughshod over El Dorado County, in an effort to change its character.

Please **reject these illogical and unsafe plans** and set a precedent that prioritizes the safety and well-being of our community over developer profits. These developments should not be allowed to proceed.

Thank you for your consideration.

Sincerely,

Chris Blair

Report Suspicious

Dear Supervisors of EDC,

First I would like to thank you for all the efforts put forth in holding the line against the proposed commercial construction projects on Deer Valley Road. And a special thanks to Supervisor Parlin for standing firm against these projects.

Once again this issue has reared its ugly head and once again I must make my voice heard in opposition to these horrendous, ill conceived ideas of NDI/HomeCA. They have added such stress to us and to our community.

I urge you to stand strong against them. Once you relent, they will have gained access to beautiful land to build their unsuitable and huge SUD facilities which will most definitely jeopardize our safety and tranquility. And they will then be emboldened to move forward as they please and you, a local, will have lost control to these interlopers!

In the recent Valley Fire, I recall my fear in having to mandatorily evacuate. I was truly shaken. Thankful for the first responders, fire department and the winds blowing in the opposite direction, the fire was put out very quickly. Remembering also the Silver Fire, which was also put out quickly due to a series of lucky circumstances. However, one day that may not be the case. In the face of such a wildfire emergency, I shudder to think how chaotic and dangerous things would be if these structures were built and occupied.

Wildfire is just one serious issue these projects bring. Well water, infrastructure, etc. Deer Valley cannot support these facilities. I urge you not to agree to them and bring down a dark cloud upon us all.

Please heed your community members and stand strong against these unscrupulous interlopers.

Sincerely,

Rick and Betty Tackett
