El Dorado County Supervisors,

In review of agenda item 19-1479 I would appreciate seeing your support for the complete repair of drainage in the area, railroad and other related repairs or Option 1. It would seem that support for this option would be available from the SPTC and various organizations that have economic interest in mitigating future storm damage. It would be of interest to many riders who in the last couple years have begun using and continue to enjoy the use of this section even though it is difficult to pass as a cyclist or hiker. Much more difficult for our equestrian trail users. Many cyclists in the area have expressed that complete repair is desired. See attached photo of a cycling customer.

Thank you in advance for your support of the EDT and recreation for our community!

Sincerely,

Chris Cockrell
Owner of Sam's Town Cyclery and Daily Advocate of Our El Dorado Trail & Rail
