ARTICLE XI

It is further understood that this Agreement does not create an exclusive relationship between County and District, and District may perform similar work or services for others.

ARTICLE XII

District shall not subcontract, delegate, or assign services to be provided, in whole or in part, to any other person or entity without prior written consent of County. County may, at its sole discretion, through its Contract Administrator, authorize District to utilize subconsultants for services performed in ARTICLE I, Scope of Work, for the particular tasks, work and deliverables identified therein. Said authorization and approval shall be sought and obtained by District prior to subconsultants' commencement of any work under this Agreement. ARTICLE XIII

Independent Contractor: The parties intend that an independent contractor relationship will be created by this contract. District is, and shall be at all times, deemed independent and shall be wholly responsible for the manner in which it performs services required by the terms of this Agreement. District exclusively assumes responsibility for acts of its employees, agents, affiliates, and subconsultants, if any are authorized herein, as they relate to the services or work to be performed under this Agreement during the course and scope of their employment by District. Those persons will be entirely and exclusively under the direction, supervision, and control of District.

County may designate the tasks to be performed and the results to be accomplished under this Agreement, provide information concerning the work or services, approve or disapprove the final work product and/or services provided, and set deadlines for the completion of the work or services, but County will not control or direct the manner, means, methods, or sequence in which District performs the work or services for accomplishing the results. District understands and agrees that District lacks the authority to bind County or incur any obligations on behalf of County.

District, including any subconsultant or employees of District, shall not receive, nor be eligible for, any benefits County provides for its employees, including, but not limited to, vacation pay, paid holidays, life insurance, health insurance, social security, disability insurance, pension, or 457 plans. District shall be solely responsible for paying its employees, and for withholding Federal Income Contribution Act amounts and other taxes, workers' compensation, unemployment compensation, medical insurance, life insurance, or any other benefit that District provides for its employees.

District acknowledges that it has no authority to bind the County or incur any obligations on behalf of the County with regard to any matter, and shall not make any agreements or representations on the County's behalf.

ARTICLE XIV

Fiscal Considerations: The parties to this Agreement recognize and acknowledge that County is a political subdivision of the State of California. As such, County is subject to the provisions of Article XVI, Section 18 of the California Constitution and other similar fiscal and procurement laws and regulations and may not expend funds for products, equipment, or services not budgeted in a given fiscal year. It is further understood that in the normal course of County business, County will adopt a proposed budget prior to a given fiscal year, but that the final adoption of a budget does not occur until after the beginning of the fiscal year.

Notwithstanding any other provision of this Agreement to the contrary, County shall give notice of cancellation of this Agreement in the event of adoption of a proposed budget that does not provide for funds for the services, products, or equipment subject herein. Such notice shall become effective upon the adoption of a final budget, which does not provide funding for this Agreement. Upon the effective date of such notice, this Agreement shall be automatically terminated and County released from any further liability hereunder.

In addition to the above, should the Board of Supervisors during the course of a given year for financial reasons reduce or order a reduction in the budget for any County department for which services were contracted to be performed, pursuant to this paragraph in the sole discretion of County, this Agreement may be deemed to be canceled in its entirety subject to payment for services performed prior to cancellation.

ARTICLE XV

Audit by California State Auditor: District acknowledges that if total compensation under this Agreement is greater than \$10,000.00, this Agreement is subject to examination and audit by the California State Auditor for a period of three (3) years, or for any longer period required by law, after final payment under this Agreement, pursuant to California Government Code § 8546.7. In order to facilitate these potential examinations and audits, District shall maintain, for a period of at least three (3) years, or for any longer period required by law, after final payment under the Agreement, all books, records, subconsultant records, and documentation necessary to demonstrate performance under the Agreement.

ARTICLE XVI

Default, Termination, and Cancellation:

- A. Termination by Default: If either party becomes aware of an event of default, that party shall give written notice of said default to the party in default that shall state the following:
1. The alleged default and the applicable Agreement provision.
 2. That the party in default has ten (10) days upon receiving the notice to cure the default (Time to Cure).

If the party in default does not cure the default within ten (10) days of the Time to Cure, then such party shall be in default and the party giving notice may terminate the Agreement by issuing a Notice of Termination. The party giving notice may extend the Time to Cure at their discretion. Any extension of Time to Cure must be in writing, prepared by the party in default for signature by the party giving notice, and must specify the reason(s) for the extension and the date in which the extension of Time to Cure expires.

If County terminates this Agreement, in whole or in part, for default:

1. County reserves the right to procure the goods or services, or both, similar to those terminated, from other sources and District shall be liable to County for any excess costs for those goods or services. County may deduct from any payment due, or that may thereafter become due to District, the excess costs to procure from an alternate source.
2. County shall pay District the sum due to District under this Agreement prior to termination, unless the cost of completion to County exceeds the funds remaining in the Agreement. In which case the overage shall be deducted from any sum due District under this Agreement and the balance, if any, shall be paid to District upon demand.
3. County may require District to transfer title and deliver to County any completed work under the Agreement.

The following shall be events of default under this Agreement:

1. Failure by either party to perform in a timely and satisfactory manner any or all of its obligations under this Agreement.
2. A representation or warranty made by District in this Agreement proves to have been false or misleading in any respect.
3. District fails to observe and perform any covenant, condition or agreement on its part to be observed or performed under this Agreement, unless County agrees, in writing, to an extension of the time to perform before that time period expires.
4. A violation of ARTICLE XXIII, Conflict of Interest.

- B. Bankruptcy: County may terminate this Agreement immediately in the case of bankruptcy, voluntary or involuntary, or insolvency of District.
- C. Ceasing Performance: County may terminate this Agreement immediately in the event District ceases to operate as a business or otherwise becomes unable to substantially perform any term or condition of this Agreement.
- D. Termination or Cancellation without Cause: Either party may terminate this Agreement, in whole or in part, for convenience upon thirty (30) calendar days' written Notice of Termination. If such termination is effected, County will pay for satisfactory services rendered before the effective date of termination, as set forth in the Notice of Termination provided to District, and for any other services that County agrees, in writing, to be necessary for contract resolution. In no event, however, shall County be obligated to pay more than the total amount of the Agreement. Upon issuance or receipt of a Notice of Termination, District shall promptly discontinue all services affected, as of the effective date of termination set forth in such Notice of Termination.

ARTICLE XIX

Indemnity: Each party shall indemnify, defend, and hold harmless the other party, its officers, employees, and agents against, and will hold and save them and each of them, harmless from any and all actions, claims, penalties, obligations, liabilities, or damages that may be asserted or claimed by any person, firm, entity, corporation, political subdivision, or other organization arising out of or in connection with its performance of this Agreement. The indemnifying Party will promptly pay any judgment rendered against the indemnifying Party and/or the other Party covering such claims, damages, penalties, obligations, and liabilities. - F. The insurance will be issued by an insurance company acceptable to County's Risk Management Division or be provided through partial or total self-insurance likewise acceptable to the Risk Management Division.
- G. District agrees that the insurance required herein shall be in effect at all times during the term of this Agreement. In the event said insurance coverage expires at any time or times during the term of this Agreement, District agrees to provide at least thirty (30) days prior to said expiration date, a new certificate of insurance evidencing insurance coverage as provided for herein for not less than the remainder of term of the Agreement, or for a period of not less than one (1) year. New certificates of insurance are subject to the approval of Risk Management and District agrees that no work or services shall be performed prior to the giving of such approval. - M. District's obligations shall not be limited by the foregoing insurance requirements and shall survive the expiration of this Agreement.

- N. In the event District cannot provide an occurrence policy, District shall provide insurance covering claims made as a result of performance of this Agreement for not less than three (3) years following completion of performance of this Agreement.

The remedies herein provided are cumulative and are not exclusive of any other remedies provided by law.

ARTICLE XXIII

Exhibit A

Scope of Work

District shall assist County with providing continuous stormwater monitoring and reporting services for the Regional Stormwater Monitoring Program (Project) for the Lake Tahoe Basin in order to fulfill the regulatory requirements of the California National Pollutant Discharge Elimination System (NPDES) permits issued by the Lahontan Regional Water Quality Control Board to the City of South Lake Tahoe, El Dorado County, Placer County, the California Department of Transportation (Caltrans), and the Nevada Interlocal Agreements (ILAs) between the Nevada Division of Environmental Protection and Washoe County, Douglas County, and the Nevada Department of Transportation for the 2022-2027 term. All data shall be collected in a manner consistent with Regional Stormwater Monitoring Program (RSWMP) protocols as outlined in the RSWMP Framework and Implementation Guidance document (FIG).

District shall submit all deliverables in accordance with ARTICLE I, Scope of Services, of this Agreement. Unless otherwise agreed upon by County and District, all draft deliverables shall be submitted in MS Word and PDF format, and all final deliverables shall be submitted in PDF format. The deliverables and schedule for various tasks is dependent upon the frequency of which water quality samples can be collected due to possible weather constraints. District shall communicate with County's Contract Administrator, or designee, for any deliverables and/or schedule changes or delays.

Long-term urban stormwater runoff monitoring is meant to estimate the total pollutant loads at each respective catchment outfall and document how those loads change with the implementation of improvements in the catchment over time. The BMP sites are used to assess the effectiveness of the chosen BMP in providing stormwater treatment to reduce nutrient and sediment loads. The Project shall be considered a success if the requirements outlined in the monitoring section of the jurisdictional permits/ILAs are met to the satisfaction of the respective regulatory agency.

District shall complete the tasks detailed below in accordance with the terms and conditions of the Agreement, including the reporting and deliverable requirements.

Task 1: Administration

This task includes operations necessary to support staff and facilities for the term of the Project and management duties related to executing the Project including progress reporting, invoicing, and contract administration.

District shall provide the technical and administrative services needed to complete the tasks in this Scope of Work and ensure it is completed within budget and on schedule. In accordance with ARTICLE V, Progress Reports, of this Agreement, quarterly

progress reports shall be provided on the thirtieth (30th) of the month following the end of the quarter to document that contract requirements are being met. District shall submit quarterly invoices linked with Project activities. Expenses for Project work shall be contained on the invoices. Appropriate back-up documentation for itemized expenses shall also be provided.

Deliverables

- Quarterly progress reports
- Quarterly invoices

Task 2: Stormwater Monitoring

This task includes Project management, staff coordination, site management, stormwater monitoring, assistance with Tahoe Total Maximum Daily Load (TMDL) compliance and/or planning, and analysis and reporting of collected data.

Project management duties shall include communication and meetings with partnering jurisdictions and regulatory agencies, and coordination of efficient and effective completion of monitoring activities and site maintenance, including with subconsultants where necessary.

Urban stormwater runoff monitoring shall be conducted at least six (6) catchment outfall sites and at least two (2) Best Management Practices (BMP) sites using automated samplers. The catchment outfall sites that have previously been monitored include Lakeshore (LS), Incline Village (IV), Speedboat (SB), Tahoe City (TC), Tahoma (TA), Tahoe Valley (TV), Upper Truckee (UT), and Pasadena (PO) (Exhibit B). The BMP sites include Pasadena (PI/PO), Rubicon (RI/RO), SR431 (JI/JO/CI/CO) and Elk's Club (Figure 1). Representatives to the Implementers' Monitoring Program (IMP) may adjust these sites prior to the commencement of a given water year in coordination with District.

District shall collect continuous discharge, turbidity, precipitation, and temperature data at all sites. In addition, District shall conduct discrete water quality sampling for a minimum of six (6) events, but if weather allows, shall sample the ideal range of ten to twelve (10-12) events per year distributed across all seasons. The ten to twelve (10-12) events sampling frequency is recommended to generate enough samples per year from each site to provide statistically defensible average annual load estimates.

Discrete water quality samples shall be composited using a flow weighted method and analyzed for the Lake Tahoe pollutants of concern: Fine Sediment Particles (FSP < 16 µm), Total Phosphorus (TP), and Total Nitrogen (TN).

Quality Control measures presented in the RSWMP Quality Assurance Project Plan (QAPP 2011) shall be incorporated into the standard operating procedures for stormwater

monitoring and sample analysis, which includes collection of control samples at no less than the recommended rate of ten percent (10%).

All urban stormwater monitoring data shall be stored, managed, and analyzed by the RSWMP Data Management System (DMS). The DMS enables remote access to monitoring sites and is fully integrated, taking data from the point of collection through to reporting. It performs statistical analyses through preset routines, and reports status and trends consistently according to preset templates.

District shall compile results and discuss findings in an Annual Stormwater Monitoring Report compliant with permit/ILAs requirements. The draft annual report shall utilize the pre-approved reporting templates housed in the DMS and shall be submitted to partner jurisdictions for review and comment. Upon approval, partner jurisdictions will be able to submit the final report to the applicable regulatory agency.

Deliverables

- Draft Annual Stormwater Monitoring Report compliant with permit/ILAs 30 days before submittal to applicable regulatory agency
- Final Annual Stormwater Monitoring Report by due date to applicable regulatory agency

Task 3: Professional Services

District shall use subconsultants to ensure that proper site maintenance, equipment installation and as-needed repairs, other activities associated with keeping monitoring sites functioning effectively, sample analysis, and proper data collection, storage, management, analysis and reporting through the DMS continue uninterrupted.

Flow-weighted sample composites shall be delivered to analytical labs capable of performing the required analyses. Samples shall be analyzed for five (5) analytes:

- Total Suspended Sediment (TSS) and Particle Size Distribution (PSD) (required for calculation of FSP)
- Total Phosphorus (TP)
- Total Kjeldahl Nitrogen (TKN) and Nitrate+Nitrite (NO_3+NO_2) (required for calculation of TN)

District shall be responsible for the management and maintenance of the stormwater monitoring data.

Deliverables

- Raw data generated from the seven (7) monitoring sites (upon request) including:
 - Continuous flow
 - Continuous turbidity
 - Analytical results
 - Continuous meteorological data
