I live at 6353 Page Lane
in El Dorado. I strongly oppose
the proposed building of the Senior
Care facility on Kok. Lane. The site
consist of a Three story building with
only a FIFTY Foot set back raised higher
than my back property. In my back yard
and from inside my home I would be looking
almost straight up at this housing unit.
All of my privacy would be taken away as well
as my country type darkness due to the
lighting that would be cast from all the
units and building security lights. The
homes on Page Lane were not considered when
this project was designed. I'm also very
concerned about the additional traffic and
noise. Clearing all the many oak ~~the~~ trees
and leveling this lot would turn ^{it} this
into the Bay area. Please lets keep
this community more like a community.
