Hello BOS,

Death from covid in children ages 0-17, for Placer county and SFO = ZERO. I would assume El Dorado is same - I am not seeing those statistics. Can you provide?

Long term studies of effects/efficacy of the covid vaccines = ZERO.

Last death from covid in El Dorado County = July 28.

Before that, the last death was Mar 4.

Doubtful those were children.

Number of vaccinated people I personally know that have gotten covid since being vaccinated = 17. The vaccine is pointless. It does not prevent covid, and states so on the insert provided with the vaccine.

Covid death rate in El Dorado county: .0008 % (population of 192,843 with 160 deaths).

Why would we force children, or anyone, to receive an untested, ineffective vaccine, full of harmful ingredients, which is proven to cause heart and other problems more than it's proven to reduce covid?

Where there is risk, there should be choice.

Mandates are unconstitutional.

The U.S. Court of Appeals for the 5th Circuit cited "grave statutory and constitutional issues" with the [federal COVID-19 vaccine rule](#) developed by the Occupational Safety and Health Administration.

Please pass the resolution AGAINST vaccine mandates for children, or any person, #145-2021, initiated by Supervisor Turnboo.
