Dear Local Public Health Emergency Preparedness Director:

The California Department of Public Health (CDPH), Emergency Preparedness Office (EPO) is pleased to announce the request for applications (RFA) for emergency preparedness for public health and the health care coalition grants. This request for application includes the following funding sources:

1. Centers for Disease Control and Prevention's (CDC) Public Health Emergency Preparedness (PHEP);
2. Assistant Secretary for Preparedness and Response's (ASPR) Hospital Preparedness Program (HPP); and
3. State General Fund Pandemic Influenza (GF Pan Flu).

Collectively, this funding is intended to enhance day-to-day response plans and prepare for public health and/or medical emergencies. CDPH will enter into a five-year grant agreement with Local Health Jurisdictions (LHJ) covering the period July 1, 2022 to June 30, 2027. LHJs can apply for each funding source, as applicable (see *Attachment 2*). Following is a description of each funding source and their intended use.

CDC PHEP

PHEP funding is intended to build public health preparedness and response capabilities nationwide. CDPH is providing PHEP funding to LHJs within California to build and strengthen their abilities to effectively respond to a range of public health threats, including infectious diseases, natural disasters, and biological, chemical, nuclear, and radiological events. Preparedness activities funded with PHEP should specifically target the development of emergency-ready public health departments that are flexible and adaptable. For additional information, please visit the [website](#) for CDC's State and Local Readiness PHEP.

Lab

Public Health Laboratory funding is carved from PHEP funding to support local public health laboratories to maintain their Laboratory Response Network (LRN-B) capability to detect biological threats and emerging infectious diseases

CRI

Public Health Cities Readiness Initiative funding is intended to enhance preparedness in large metropolitan public health jurisdictions, to effectively respond to large public health emergencies needing life-saving medicines and medical supplies. CRI funding is to develop, test, and maintain plans to quickly receive medical countermeasures from the Strategic National Stockpile and distribute them to local communities.

ASPR HPP

HPP funding is intended to improve capacity of the health care system to plan for and respond to large-scale emergencies and disasters. CDPH is providing HPP funding to local public health jurisdictions within California to development and sustain health care coalitions (HCCs). HCCs consist of core members from health care, public health, emergency medical services and emergency management organizations plus additional members that support the health care delivery system. HCCs partner to prepare health care systems to respond to emergencies and disasters, with an aim to improve patient outcomes during disasters and to minimize the need for state and federal resources. For additional information, please visit the [website](#) for ASPR's HPP.

GF Pan Flu

GF Pan Flu funding is intended to enhance LHJs readiness to respond to an infectious disease outbreak. GF Pan Flu funding compliments and supports PHEP and HPP funding goals while expanding the planning, training, and exercising of mass vaccinations in response to an infectious disease outbreak.

Funding:

Funding for the five-year grant period is approved on an annual basis. The funding allocations for HPP are an estimate based on FY 2021-22 allocations as ASPR has not released final allocations for FY 2022-23 (see Attachment 1). The total grant agreement will be based on the allocations listed in Attachment 1 and multiplied by five years.

Funding of local public health jurisdictions is contingent on CDPH-EPO receiving federal and State funds each fiscal year. CDPH-EPO will release local allocations and funding guidance (see Attachment 4) along with FY 22-23 budget templates annually to local public health jurisdictions for all emergency preparedness for public health and the health care delivery system grants prior to the start of the next fiscal year.

Application Submission Requirements:

1. Complete and submit a Letter of Intent (*Attachment 2*) and Project Representative information (*Attachment 3*) and email to LHBTProg@cdph.ca.gov by **April 19, 2022**.
2. Complete an Application package, starting with Attachments 4I-4M, as applicable, and submit to CDPH at: LHBTProg@cdph.ca.gov by **May 20, 2022**.

Upon receipt of attachments 2 & 3, your assigned contract manager will finalize your grant agreement and will send to your LHJ for review and approval. As a reminder, LHJs are not to begin work under this RFA until there is a fully executed grant agreement.

We look forward to collaborating on these activities with your LHJ. EPO will host an application webinar on April 19th and 20th, 2022 to go over the requirements and activities of these funding sources. If you have any questions or need further clarification, please reach out to your EPO Contract Manager.

Sincerely,

On behalf of
Melissa Relles
Assistant Deputy Director
Emergency Preparedness Office
California Department of Public Health

A. Introduction

The Emergency Preparedness Office (EPO) of the California Department of Public Health (CDPH) is soliciting applications from all Local Health Departments (LHDs) to provide public health and medical emergency preparedness funding for LHDs to plan, train, exercise and improve local public health and medical emergency response and recovery from a disaster. Funding sources include: the Centers for Disease Control and Prevention (CDC), for Public Health Emergency Preparedness (PHEP) planning, Cities Readiness Initiative (CRI), and Laboratory (Lab); the Assistant Secretary for Preparedness & Response (ASPR) for Hospital Preparedness Program (HPP) planning; and the State of California for Pandemic Influenza (Pan Flu) planning.

This application begins the process by which CDPH-EPO will prepare a five-year agreement. The CDPH-EPO authority for these grant agreements is vested in the California Health and Safety Code, Sections 100150-100236, 100250-100255, 100325-100950, 101315, 101319, 131000-131020, and 131050-131231; Government Code, Sections 8574.48 and 8587.8-8587.9; and California Code of Regulations, Titles 17 and 22. The services in this grant agreement are identified as 100% local assistance funding in our agency's budget and meet the conditions of State Contracting Manual 3.17.

The budget period (BP) for all funding streams begins on July 1st and ends on June 30th of each Fiscal Year (FY). The funding streams included in this Guidance are listed below:

- Public Health Emergency Preparedness (PHEP)
 - Cities Readiness Initiative (PHEP CRI)
 - Laboratory (PHEP Lab)
- Hospital Preparedness Program (HPP)
- Pandemic Influenza (Pan Flu)

B. Funding Authorization

1. Pandemic and All-Hazards Preparedness and Advancing Innovation (PAHPAI) Act

The PAHPAI Act reauthorizes, revises, and establishes several programs and entities relating to public health emergency preparedness and response. Language from the PAHPAI Act reauthorizing PHEP and HPP programs is as follows:

TITLE II--IMPROVING PREPAREDNESS AND RESPONSE

(Sec. 201) This section reauthorizes through FY2023 and revises the Public Health Emergency Preparedness cooperative-agreement program administered by the Centers

for Disease Control and Prevention (CDC) to include evaluations using evidence-based benchmarks and objective standards.

(Sec. 202) This section reauthorizes through FY2023 and revises the Hospital Preparedness Program administered by the Office of the Assistant Secretary for Preparedness and Response (ASPR) to require applicants for cooperative agreements under the program to describe the applicant's approach for coordinating services and integrating health data.

a) PHEP

The capability standards inform the PHEP logic model, which is a high-level description of the PHEP program's general approach that displays "if-then" relationships between the program's strategies, activities, and outcomes. The logic model also highlights priority strategies and activities, provides examples of consequent outputs, and characterizes the intended outcomes that will result from building jurisdictional capabilities.

PHEP recipients are expected to show measurable progress toward achieving the short-term and long-term outcomes during this five-year performance period. CDC will use its PHEP Operational Readiness Review (ORR) Reporting and Tracking System (PORTS) evaluation process to measure PHEP recipient progress in achieving desired outcomes.

Subject to the availability of funding, CDC may introduce future projects that support advanced development of key public health preparedness capabilities in high population cities during the 2019-2024 performance period. This future project may support high

population cities with identifying gaps and strengthening chemical and radiological preparedness.

In addition, LHJs may be requested to submit additional data and documents during the five-year agreement as required by the federal funding authority and/or CDPH-EPO.

f) Site Visits

CDPH-EPO Project Officers and Contract Managers will conduct annual site visits of all LHJs or their designated entities to review progress on grant deliverables and activities and provide technical assistance. Site visits are an opportunity for LHJs to share best practices, trainings, exercises, and other events demonstrating grant progress, as well as discuss any challenges or

barriers. Annual site visits may be virtual or in-person, depending on state and/or local restrictions.

g) Statewide Medical Health Exercise (SWMHE)

All LHJs must participate in the annual Statewide Medical and Health Exercise (SWMHE). Each FY SWMHE will notify all LHJs via email and provide a link to the SWMHE website with the dates, incident, location(s), capabilities being tested, and other details. LHJs should utilize their participation in this exercise to complete multiple exercise requirements and encourage participation from all members of their Health Care Coalition, LEMSA and OES.

G. Additional Information

Additional information to assist LHJs with their application, managing and reporting progress.

i. Appendix A - Budget Instructions

Instructions on how to complete the budget templates, include expanded authority (carry-forward) funds and budget revisions.

ii. Appendix B - What's Allowable Matrix

Guide to items that are allowable to purchase by budget category and purpose.

iii. Appendix C - Work Plan Instructions

Instructions on how to complete the work plan templates, including progress reporting.

H. Audit

All funding is subject to an audit by CDPH's Internal Audits program for each FY funding was received. CDPH-EPO assesses the risk of each LHJ based on their ability to meet deliverable deadlines, provide complete and accurate reports, appropriately budget and expend their funds. The assessment is utilized by CDPH's Internal Audits program to determine the type of audit, desktop or onsite, to be performed. CDPH's Internal Audits aims to perform a fiscal audit on all federal funds for each LHJ at least once during a three-year period.

I. Continuation Guidance

Successive fiscal years applicants will receive an annual Continuation Guidance which will include updated federal and State funding requirements, and the annual allocation for the upcoming fiscal year. Updated application documents, per the checklist on page 2, must be completed and submitted each successive fiscal year upon request during the five-year agreement. All LHJs will receive an email notification prior to the upcoming FY providing the annual Continuation Guidance, the annual allocations, updates to the Local work plan activities and deliverables and updates from Federal and State.

Application	Definitions
Known Gaps¹	
Known Gaps	Enter gaps identified from jurisdictional Capabilities Planning Guide (CPGs) survey, trainings, exercises, real events, after action reports and/or improvement plans that you want <u>to resolve during the fiscal year</u> .
Classify Activity²	
Sustain	A capability is built and ready for an emergency and/or disaster. Sustainment is working through the preparedness cycle; train, exercise, evaluate and improve in order to retain the ability and improve based on current jurisdictional hazards.
Build	A capability is incomplete. Building activities include research, development, identifying key partners and stakeholders, establishing relationships, defining roles, responsibilities, draft, public comment, etc..
Fiscal Year (FY) Activity³	
Plan/Develop	Strategic and operational planning establishes priorities, identifies expected levels of performance and capability requirements, provides the standard for assessing capabilities and helps stakeholders learn their roles. The planning elements identify what an organization's Standard Operating Procedures (SOPs) or Emergency Operations Plans (EOPs) should include for ensuring that contingencies are in place for delivering the capability during a large-scale disaster.
Organize/Equip	Organizing and equipping include identifying what competencies and skill sets people should possess and ensuring an organization has the correct personnel. Additionally, it includes identifying and acquiring standard equipment an organization may need to use in times of emergency.
Train	Training with the knowledge, skills, and abilities needed to perform key tasks required during a specific emergency situation.
Exercise	Exercises enable entities to identify strengths and incorporate them within best practices to sustain and enhance existing capabilities. They also provide an objective assessment of gaps and shortfalls within plans, policies and procedures to address areas for improvement prior to a real-world incident. Exercises help clarify roles and responsibilities among different entities, improve inter-agency coordination and communications and identify needed resources and opportunities for improvement.
Evaluate/Improve	Quality improvement thru after action Reports (AARs), collecting lessons learned, develop improvement plans, and track corrective actions to address gaps and deficiencies identified in exercises or real-world events to continuously improve and strengthen preparedness.
Updating	Modernize, make current and/or include the most recent information.
Not Applicable	Does not apply my jurisdiction. For example, a Public Health Lab, non CRI etc.

This fiscal year by Q2	The activity will be complete by the end of the second quarter of the fiscal year.
This fiscal year by Q4	The activity will be complete by the end of the fourth quarter of the fiscal year.
Continuous	The activity occurs throughout the year.
Out year	Not working on the activity this fiscal year, it will be addressed in the future.

Capability 4:	Medical Surge
Goal:	Health care organizations deliver timely and efficient care to their patients even when the demand for health care services exceeds available supply. The HCC, in collaboration with the state's/jurisdiction's ESF-8 lead agency, coordinates information and available resources for its members to maintain conventional surge response. When an emergency overwhelms the HCC's collective resources, the HCC supports the health care delivery system contingency and crisis surge response and promotes a timely return to conventional standards of care when possible.

Definitions

Enter gaps identified from jurisdictional Capabilities Planning Guide (CPGs) survey, trainings, exercises, real events, after action reports and/or improvement plans that you want to resolve during the fiscal

A capability is built and ready for an emergency and/or disaster. Sustainment is working through the preparedness cycle; train, exercise, evaluate and improve in order to retain the ability and improve based on current jurisdictional hazards.

A capability is incomplete. Building activities include research, development, identifying key partners and stakeholders, establishing relationships, defining roles, responsibilities, draft, public comment, etc..

Strategic and operational planning establishes priorities, identifies expected levels of performance and capability requirements, provides the standard for assessing capabilities and helps stakeholders learn their roles. The planning elements identify what an organization's Standard Operating Procedures (SOPs) or Emergency Operations Plans (EOPs) should include for ensuring that contingencies are in place for delivering the capability during a large-scale disaster.

Organizing and equipping include identifying what competencies and skill sets people should possess and ensuring an organization has the correct personnel. Additionally, it includes identifying and acquiring standard equipment an organization may need to use in times of emergency.

Training with the knowledge, skills, and abilities needed to perform key tasks required during a specific emergency situation.

Exercises enable entities to identify strengths and incorporate them within best practices to sustain and enhance existing capabilities. They also provide an objective assessment of gaps and shortfalls within plans, policies and procedures to address areas for improvement prior to a real-world incident.

Exercises help clarify roles and responsibilities among different entities, improve inter-agency coordination and communications and identify needed resources and opportunities for improvement.

Quality improvement thru after action Reports (AARs), collecting lessons learned, develop improvement plans, and track corrective actions to address gaps and deficiencies identified in exercises or real-world events to continuously improve and strengthen preparedness.

Modernize, make current and/or include the most recent information.

Application	Definitions
Known Gaps¹	
Known Gaps	Enter gaps identified from jurisdictional Capabilities Planning Guide (CPGs) survey, trainings, exercises, real events, after action reports and/or improvement plans that you want <u>to resolve during the fiscal year</u> .
Classify Activity²	
Sustain	A capability is built and ready for an emergency and/or disaster. Sustainment is working through the preparedness cycle; train, exercise, evaluate and improve in order to retain the ability and improve based on current jurisdictional hazards.
Build	A capability is incomplete. Building activities include research, development, identifying key partners and stakeholders, establishing relationships, defining roles, responsibilities, draft, public comment, etc..
Fiscal Year (FY) Activity³	
Plan/Develop	Strategic and operational planning establishes priorities, identifies expected levels of performance and capability requirements, provides the standard for assessing capabilities and helps stakeholders learn their roles. The planning elements identify what an organization's Standard Operating Procedures (SOPs) or Emergency Operations Plans (EOPs) should include for ensuring that contingencies are in place for delivering the capability during a large-scale disaster.
Organize/Equip	Organizing and equipping include identifying what competencies and skill sets people should possess and ensuring an organization has the correct personnel. Additionally, it includes identifying and acquiring standard equipment an organization may need to use in times of emergency.
Train	Training with the knowledge, skills, and abilities needed to perform key tasks required during a specific emergency situation.
Exercise	Exercises enable entities to identify strengths and incorporate them within best practices to sustain and enhance existing capabilities. They also provide an objective assessment of gaps and shortfalls within plans, policies and procedures to address areas for improvement prior to a real-world incident. Exercises help clarify roles and responsibilities among different entities, improve inter-agency coordination and communications and identify needed resources and opportunities for improvement.
Evaluate/Improve	Quality improvement thru after action Reports (AARs), collecting lessons learned, develop improvement plans, and track corrective actions to address gaps and deficiencies identified in exercises or real-world events to continuously improve and strengthen preparedness.
Updating	Modernize, make current and/or include the most recent information.
Not Applicable	Does not apply my jurisdiction. For example, a Public Health Lab, non CRI etc.

[Local Entity Name]

Capability 4:	Medical Surge
Goal:	Health care organizations deliver timely and efficient care to their patients even when the demand for health care services exceeds available supply. The HCC, in collaboration with the state's/jurisdiction's ESF-8 lead agency, coordinates information and available resources for its members to maintain conventional surge response. When an emergency overwhelms the HCC's collective resources, the HCC supports the health care delivery system contingency and crisis surge response and promotes a timely return to conventional standards of care when possible.

Enter gaps identified from jurisdictional Capabilities Planning Guide (CPGs) survey, trainings, exercises, real events, after action reports and/or improvement plans that you want to resolve during the fiscal

A capability is built and ready for an emergency and/or disaster. Sustainment is working through the preparedness cycle; train, exercise, evaluate and improve in order to retain the ability and improve based on current jurisdictional hazards.

A capability is incomplete. Building activities include research, development, identifying key partners and stakeholders, establishing relationships, defining roles, responsibilities, draft, public comment, etc..

Strategic and operational planning establishes priorities, identifies expected levels of performance and capability requirements, provides the standard for assessing capabilities and helps stakeholders learn their roles. The planning elements identify what an organization's Standard Operating Procedures (SOPs) or Emergency Operations Plans (EOPs) should include for ensuring that contingencies are in place for delivering the capability during a large-scale disaster.

Organizing and equipping include identifying what competencies and skill sets people should possess and ensuring an organization has the correct personnel. Additionally, it includes identifying and acquiring standard equipment an organization may need to use in times of emergency.

Training with the knowledge, skills, and abilities needed to perform key tasks required during a specific emergency situation.

Exercises enable entities to identify strengths and incorporate them within best practices to sustain and enhance existing capabilities. They also provide an objective assessment of gaps and shortfalls within plans, policies and procedures to address areas for improvement prior to a real-world incident.

Exercises help clarify roles and responsibilities among different entities, improve inter-agency coordination and communications and identify needed resources and opportunities for improvement.

Quality improvement thru after action Reports (AARs), collecting lessons learned, develop improvement plans, and track corrective actions to address gaps and deficiencies identified in exercises or real-world events to continuously improve and strengthen preparedness.

California Department of Public Health
Emergency Preparedness Office (EPO)
Corrective Action Plan (CAP) Preparation Instructions

General Instructions: The instructions below have been prepared to assist you in developing your Corrective Action Plan (CAP) for the findings that were made during your Audit. The Final Audit Report was issued to you by the California Department of Public Health, Office of Compliance--Grant Compliance Unit (GCU), which disclosed findings that require corrective action and were stated in terms of "recommendations" by the auditor(s) in the Final Audit Report. These preparation instructions will apply both to the Hospital Preparedness (HPP) and the Public Health Emergency Preparedness (PHEP) Program audits. Each audit finding must be addressed separately.

Your CAP must be prepared and completed using the Final Audit Report. List all findings made using the CAP template provided in this document. The draft CAP must be submitted to EPO for review and approval no later than thirty (30) days after receipt of the CAP template and instructions. Audit findings must be resolved no later than six (6) months after receiving the Final Audit Report. Extensions to this deadline may be granted by your Contract Manager on a case-by-case basis.

CAP Template Completion Instructions :

Upon receipt of these instructions and template, it is recommended that you save a copy of the template to your hard-drive to simplify preparation and for future reference.

COUNTY: (insert County name)

Implementation Schedule Date: Enter the date, month, and year you intend to "activate" CAP activities. Please keep in mind that all activities must be completed/resolved within six (6) months from the date the Final Audit Report was issued. This date may be an estimate of the date of implementation.

Program (PHEP/HPP): A CAP must be prepared for each audited program that had fiscal findings. Please note a separate CAP is required for each audited program; this template includes a tab for each program.

Audit Period FY: Indicate the fiscal year for which the audit was conducted. If the audit included a grant period that was extended, the fiscal year should be displayed as follows: FY 2018/19-20. The month and date are not required in this block.

Contact Information: Enter current contact information for the person who is responsible for tracking CAP activities.

Audit Information: Complete the first three (3) columns using the information within the Final Audit Report. Once those columns have been finalized, you will then complete the remaining columns to ensure that your CAP will not be returned as incomplete. If you are unable to locate the Final Audit Report, you may contact your Contract Manager and request an additional copy.

Audit Category: Listed as the sub-header for each finding, such as "Finding #1 -Sub-contract not provided to CDPH," "Finding #2 -Trust Fund", "Finding #3 -.....," etc. These sub-headers are listed in the report's "Executive Summary" and as the sub-headers in the "Findings and Recommendations" section of the Audit Report. For each finding that includes an auditor recommendation, place this sub-heading in the "Audit Category" column exactly as indicated in the Final Audit Report.

Finding: For each finding that includes an auditor recommendation, summarize the auditor's discussion in this section. In summarizing, do not change the context of the finding, but briefly discuss the auditor's disclosure of the finding. At the end of the discussion, provide the page number in the Final Audit Report where the finding is listed. Copying the "Condition" of the report finding will suffice as a summary for the CAP Finding.

Audit Recommendation: Each finding that requires corrective action will include an auditor recommendation for resolution indicated by an underlined sub-heading entitled "Recommendation" for each finding of the report. Summarize this recommendation as appropriate and place the summary in the "Audit Recommendation" block. Generally, copying the "Recommendation" of each report finding is the easiest and most accurate answer for the CAP's "Audit Recommendation" column.

Corrective Action Taken: The County must provide a detailed, yet concise discussion of the intended action(s) either planned, underway, or completed to resolve this specific finding. The discussion must differentiate between actions completed, contemplated, or not completed. Additionally, the County must provide a clear discussion regarding the measures taken to assure that this finding will not recur in the future with subsequent CDPH/EPO-funded programs/grants. Source and/or confirming documentation must be maintained and made available upon CDPH/EPO and CDPH/GCU request.

Estimated Completion Date: Insert the date the County anticipates this specific finding will be resolved. The date should be realistic and flexible as it reflects how difficult or less so it is to resolve the finding. Extensions of this estimated completion date may be requested through the County's EPO Contract Manager. Approvals will be determined on a case-by-case basis. EPO determinations are final.

Actual Completion Date: Insert the date the finding has been resolved. This block is left empty until an updated CAP is submitted to the EPO Contract Manager for review and approval. This block is only completed once and within the allotted six-month audit resolution period. Assure source documentation is maintained on each finding to confirm that the finding has been resolved. In order for the CAP to be accepted as complete, there must be a completion date.

Finding Resolved (Yes/No): This block reflects whether the finding has been completely resolved or not; future updates will be required until the finding is resolved. "Yes" is meant to convey that the finding has been resolved within the estimated or actual completion date. A "No" response conveys that the finding remains an open item within the County's CAP and further reporting will be required. Any additional time needed to resolve and report efforts of resolving the finding must be requested in writing to the EPO Contract Manager representing the County's region.

Reporting Requirements for Unresolved Audit Findings: Counties with unresolved audit findings must use this CAP template to provide written audit resolution updates to CDPH/EPO Contract Managers during scheduled mid-year and year-end reporting periods. In some instances, these reporting requirements may be sooner, depending on the County's due date for the mid-year and year-end progress reports. Should there be a variance between required program reporting and CAP updates, consult with your Contract Manager concerning a modified update reporting schedule. This reporting requirement will become an additional reporting requirement for future CDC and HPP grant award periods. All audit findings are reportable activities until the finding is resolved.

Submission of CAPs for Review and Approval: CAPs will be submitted via email to your CDPH/EPO Contract Manager - Local Emergency Preparedness Section.

Please direct all questions regarding the CAP to your Contract Manager

3. Dispute Resolution Process

- A. A Grantee grievance exists whenever there is a dispute arising from CDPH's action in the administration of an agreement. If there is a dispute or grievance between the Grantee and CDPH, the Grantee must seek resolution using the procedure outlined below.

If the problem cannot be resolved informally, the Grantee shall direct its grievance together with any evidence, in writing, to the program Branch Chief. The grievance shall state the issues in dispute, the legal authority or other basis for the Grantee's position and the remedy sought. The Branch Chief shall render a decision within ten (10) working days after receipt of the written grievance from the Grantee. The Branch Chief shall respond in writing to the Grantee indicating the decision and reasons therefore. If the Grantee disagrees with the Branch Chief's decision, the Grantee may appeal to the second level.
 - 2) When appealing to the second level, the Grantee must prepare an appeal indicating the reasons for disagreement with Branch Chief's decision. The Grantee shall include with the appeal a copy of the Grantee's original statement of dispute along with any supporting evidence and a copy of the Branch Chief's decision. The appeal shall be addressed to the Deputy Director of the division in which the branch is organized within ten (10) working days from receipt of the Branch Chief's decision. The Deputy Director of the division in which the branch is organized or his/her designee shall meet with the Grantee to review the issues raised. A written decision signed by the Deputy Director of the division in which the branch is organized or his/her designee shall be directed to the Grantee within twenty (20) working days of receipt of the Grantee's second level appeal.
- B. If the Grantee wishes to appeal the decision of the Deputy Director of the division in which the branch is organized or his/her designee, the Grantee shall follow the procedures set forth in Division 25.1 (commencing with Section 38050) of the Health and Safety Code and the regulations adopted thereunder. (Title 1, Division 2, Chapter 2, Article 3 (commencing with Section 1140) of the California Code of Regulations).
- C. 4. Executive Order N-6-22 - Economic Sanctions

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Grantee is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this Agreement. The State shall provide Grantee advance written notice of such termination, allowing Grantee at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.

Prior to awarding and executing grant, the State shall conduct its due diligence to determine if the proposed awardee is a named individual or entity on federal and any state Economic Sanctions lists. If the proposed awardee is listed, the State shall refrain from entering into the Grant. Resources for locating names of sanctioned individuals and entities are available on the DGS Office of Legal Services' webpage: Ukraine-Russia (ca.gov).

If this Agreement is valued at \$5 million or more, upon execution the State will send a separate notification outlining additional requirements specified under the EO. Compliance with this Economic Sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (<https://home.treasury.gov/policy-issues/financial-sanctions/sanctionsprograms-and-country-information/ukraine-russia-related-sanctions>).
