Subject: Oak Haven Project

Board of Supervisors:

I have viewed the Notice of Public Record on the change involving the removing of the traffic light on the Green Valley location close to the Oak Haven housing development. As I live on Travois Circle and drive this Green Valley intersection once or twice a day, I have seen first hand the impact of the traffic that occurs at this intersection. It is a very busy intersection that is close to a Middle School and has a growing population of citizens that live in this area. This increased population and daily school attendance stimulate a great deal of traffic in this area especially in the times of dropping off students in the morning and picking them up at the end of the day.

My beliefs are that the developer is not thinking of the safety and well-being of all our Rescue/El Dorado Hills citizens that travel this road/intersection everyday. It seems that the developer is simply just thinking about themselves and how they do not want to absorb the costs for the traffic light. This traffic light should be accrued in their developer costs instead of expecting the local taxpayers to pay for it. When taking out this traffic light, it is an accident waiting to happen.

I am totally against the removal of this traffic light.

Respectfully,

Dianne Witwer
