### Western Slope Animal Shelter Project

Eden Halbert to: bosfive

11/02/2010 01:55 PM

Sent by: sierradogs@gmail.com

Dear Supervisor Santiago,

I urge you in the strongest possible terms to retain Western Slope Shelter project funds for the Shelter project and not use these "one-time" capital funds to address the County's on-going operating budget deficit, despite the difficult budget challenge we are now facing.

The permanent shelter is clearly needed. The Board's action in July to move the project forward in a phased approach was the right course of action. Using the capital project funds saved in prior years for a needed community asset does not solve the structural operating budget deficit. Instead, it merely buys a little time while creating future problems by stripping resources from a needed, planned project with no hope of accumulating those resources again.

Thank you for your consideration.

Sincerely,

Eden Halbert

El Dorado County Board of Supervisors  
330 Fair Lane  
Placerville, CA 95667

Re: Western Slope Animal Shelter Project

Dear Supervisors Briggs, Knight, Nutting, Santiago, and Sweeney,

El Dorado Dog Owners Guild (EDDOG) members are located throughout the entire El Dorado County, therefore, each of you are addressed with this communication.

EDDOG understands the difficult budget challenge facing the Board of Supervisors as you consider methods of addressing the General Fund Operating Budget structural deficit projected for 2011/12 and beyond. According to County budget analysts unless sustainable, on-going cuts are made, next year's \$11 million operating deficit continues to grow in 2012/13 and beyond.

EDDOG urges you all to retain Western Slope Shelter project funds for the Shelter project and not use these "one-time" capital funds to address the

Board-

I am sorry for the delay in writing this email. I have lived in EDC for 23 years, raised two children here and love this county and my country. I am writing to you all today due to the situation our county has concerning our animal shelter. I admit that I have not been keeping up with what has been going on with the news of the shelter but I am very concerned about this situation. **The animals are the biggest concern** here and every day that the shelter gets delayed.....many animals suffer and are being euthanized.

I ask you to PLEASE allow PAWED and other Animal Advocates to help in any way possible so that the new shelter can get built without further delay. We cannot continue to wait for these services. Building a new shelter benefits so many people, creates jobs and is a much needed and necessary service.

Thank you for your time and consideration. I will be at the November 15th meeting.

Sincerely,  
Dina Savoroski

Dear Supervisors Knight, Nutting, Sweeney, Santiago, and Briggs,

Here I am again! I can't attend the Budget Workshop meeting tomorrow; I'll be busy teaching struggling students to read. However, I wanted to point out once again that using the funds set aside for the West Slope Animal Shelter to solve the county's structural budget problem would be no solution at all. If you were to bow to the pressure you will no doubt receive from some factions and make that choice, by this time next year you would be facing two large problems instead of one. You would still have a budget gap and you would have no animal shelter and no possibility of ever generating the necessary capital to build one. The CAO clearly pointed that out in the open meeting I was able to attend. I urge you to ignore the self-serving voices you will no doubt hear, and do the fiscally responsible thing: cut outgo judiciously, and attempt to find ways to generate more revenue. That's no easy task, but it is not impossible.

Regards,  
Mary Lou Giles
