LATE DISTRIBUTION
Date 5:06 pm, Apr 01, 2011

Dear Board of Supervisor Members,

On Monday, April 4th, the EDAC Committee will make a presentation regarding their recommendations for amendments to the General Plan on land use regulatory reform.

While I agree that there needs to be changes to make the system more efficient, some of these recommendations may have far-reaching and unintended consequences.

I am sorry I will not be able to attend this meeting, but my suggestion is this:

Please do not vote on these suggested amendments on Monday. Instead, please take the time to carefully consider these requests. Please consult with a diverse group of your constituents and get their opinions, answer their questions and come to a deeper understanding of how these regulations might affect your constituents both inside and outside the development community. The visions and hopes of many interest groups should be a part of the equation so that a fair, effective decision can be reached by this Board. I believe the more input you have, the wiser, more balanced your decisions will be.

I thank you for your consideration.

Sincerely,

Jamie Beutler
