Recognizing
“MAY IS MENTAL HEALTH MONTH”

WHEREAS, millions of Americans – including children – may experience a mental disorder at some point during their lives and lose hope that they can have a desirable, meaningful future.

WHEREAS, Americans recognize that comprehensive and accessible mental healthcare services in their communities can effectively treat many disorders; and

WHEREAS, the County of El Dorado has made a commitment to community-based systems of mental healthcare for all residents; and

WHEREAS, federal, state and local governments continue to struggle with ways to ensure all Americans who need physical and behavioral healthcare services can receive the help they need;
