**RE: Rail/Trail Controversy**

Lately, it seems we have be beating a dead horse.

Misunderstanding and distorted information has flourished.

Supervisor Santiago early on said: "At least the elephant is in the room." Let me tell you: IT IS A HERD OF ELEPHANTS!!"

Some of the questions that need to be answered:

1. Can the different train groups get along?
2. Does the excursion rail on public land benefit the citizens of El Dorado County?
3. Does the newest JPA Lease counter proposal limit or restrict the continuity of the Class One El Dorado Trail?
4. Does the Board of Supervisors recognize a responsibility to protect the investment the public has already made in the El Dorado Trail?

Please do not renew the Access Agreement with the Folsom Excursion Rail folks until these issues can be resolved for best good for the citizens of El Dorado County.

Walk Cheerfully on the Earth-
