## SUMMARY OF MAJOR PROVISIONS

2% @ 50 Formula (Section 21362)  
Local Safety Members

### SERVICE RETIREMENT

To be eligible for service retirement, a member must be at least age 50 and have five years of CalPERS credited service. If provided by the employer's contract, mandatory retirement age for local safety members is age 60.

The monthly retirement allowance is determined by age at retirement, years of service credit and final compensation. The basic benefit is 2% of final compensation for each year of credited service upon retirement at age 50. If retirement is deferred beyond age 50, the percentage of final compensation increases for each quarter year of attained age to 2.7% at age 55. The allowance is limited to 90% of final compensation.

Final compensation is the average monthly pay rate during the last consecutive 36 months of employment, or 12 months if provided by the employer's contract, unless the member designates a different period of 36 or 12 consecutive months when the average pay rate was higher. Certain items of special compensation earned during your final compensation period will be included in your final compensation, in accordance with Board regulations.

### DISABILITY RETIREMENT

Members substantially incapacitated from performing the usual duties for the position for his/her current employer would be eligible for disability retirement provided they have at least five years of service credit. The monthly retirement allowance is 1.8% of final compensation for each year of service. The maximum percentage for members who have between 10.000 and 18.518 years of service credit is one-third of their final compensation. If the member is eligible for service retirement the member will receive the highest allowance payable, service or disability. If provided by the employer's contract, the benefit would be a minimum of 30% of final compensation for the first five years of service credit, plus 1% for each additional year of service to a maximum benefit of 50% of final compensation.

### INDUSTRIAL DISABILITY RETIREMENT

Members permanently incapacitated from performing their duties, as defined above under Disability Retirement, and the disability is a result of a job-related injury or illness may receive an Industrial Disability Retirement benefit equal to 50% of their final compensation. If provided in the employer's contract and the member is totally disabled, the disability retirement allowance would equal 75% of final compensation in lieu of the disability retirement allowance otherwise provided. If the member is eligible for service retirement, the service retirement allowance is payable. The total allowance cannot exceed 90% of final compensation.

### PRE-RETIREMENT DEATH BENEFITS

**Basic Death Benefit:** This benefit is a refund of the member's contributions plus interest and up to six months' pay (one month's salary rate for each year of current service to a maximum of six months).
