Kitty,

Development Services does not regulate private parties that may include the use of fireworks. There is no Zoning or Building Code issues with the requested fireworks display.

Thank you,

(Note to Kim Kerr: This email is part of the procedure that the Board Assistant's and Development Services developed some years ago to communicate on fire works displays. Let me know if you have any questions.)

Please do not post my address in any publication, we have had issues with this in the past. Since this is a private event I appreciate your assistance. The address will be noted on the permit application with the Fire Dept.

Thank you
