July 17, 2014

TO: Board of Supervisor

FROM: Parks and Recreation Commission

RE: Legistar Item #13-0021

Background

At the Parks and Recreation Commission meeting on July 17, 2014, the Commission discussed and reviewed the Henningsen Lotus Park Conceptual Master Plan, completed by Foothill Associates and presented to the Commission. From the discussion, the Commission recommends the Board approve the plan and made a motion for identifying two (2) Tier 1 Priority Projects (Page 34 of the plan) that should be considered first upon approval of the plan;

- Property Acquisition – South parcel (park expansion area)
- Natural Resources – River bank stabilization and restoration at key areas

Reason for Recommendation

Property acquisition would provide for future expansion of the park and additional parking that is required for large events.

River bank stabilization and restoration will protect the resources currently at the park. It is recommended to protect the embankment from further erosion.
