I've asked Ray to pull item 11 off the consent calendar.

The reason is twofold: 1) I think it is important that you (The BOS) seriously consider the full ramifications of the multi-year contracts. Four multi-year contracts and one single year contract guarantees a very limited competitive process in the future years for the promotional HMT funds. and 2) I think it is wise to make certain next year there is the opportunity for more awards (more than 5) and more unique promotional programs. If things are not watched carefully next year the HMT funds could be dedicated to the four multi-year contracts and there may not be any RFP process.
