Re: El Dorado Hills Apartments; Request for Continuance of Planning
Commission Hearing

Dear Mel:

Our office represents the Spanos Corporation, the applicant for entitlements in the subject matter. Their applications were considered by the Planning Commission in a public hearing held on June 26, 2014. The Commission requested substantial additional information and continued the matter to its July 24 meeting. The Spanos Corporation is working diligently along with County staff and consultants to compile all of the information requested. It is clear that all of the information will not be available by the meeting on July 24.

The purpose of this letter is to request a formal continuance of the Planning Commission's public hearing until the Commission meeting on August 28, 2014. This continuance will allow us to complete the compilation of materials in response to the Commission's questions.

Very truly yours,

MILLER STARR REGALIA
