Notes: Extra trash left curbside in bags or cans are picked-up without authorization, for amounts up to 7 extra can charges. For larger amounts of extra trash left out in bags or cans in excess of one yard and resulting in more than 7 extra can charges, the trash is not picked-up without customer pre-authorization of the charges. For extra trash left curbside in bags, 1-2 small bags (or any portion thereof) = 1 extra can charge, and 1 large bag = 1 extra can charge. For reference, one "small bag" equates to a 32-gallon bag that has been tied, and has thus had its capacity reduced to less than what would fit in a 32-gallon can. For reference, one "large bag" equates to a 45-55 gallon bag that has been tied, and has thus had its capacity reduced to approximately what would fit in a 32-gallon can.

For all bulky and special handling items left curbside, customer pre-authorization is required in all cases, to both make sure the customer is aware of the charges, and to also confirm that the item is indeed intended for trash. Customer call-in for scheduling and authorization is recommended for all bulky and special handling items. Reasonable efforts will be made to seek authorization and accommodate pick-up of items left out on route without prior call-in to schedule, however larger bulky items exceeding 7 extra can charges and special handling items requiring separate collection handling (e-waste and universal waste items) left out without notification, may not be accommodated on the same day without prior customer call-in for scheduling.
