This historic railroad line should be preserved in my opinion. The possibility of having excursion trains over the line should be strongly considered, as once rail is removed, the line will be gone forever. Too many rail lines have disappeared. Just think what we would have now if the Yosemite Valley Railroad still existed! Once could cite many similar examples. I urge the county commissioners to consider saving this historic line for the enjoyment of future generations, not to mention the present generation.

Sincerely, Arnold Menke
Bisbee, Arizona
