LATE DISTRIBUTION

10/26/15

DATE 1/11/16
BOS 1/12/16

Dear Mr. McLaughlin,

Supervisor Michael Ranalli, District IV of El Dorado County suggested we contact you.

I am Cullen McGuire, a 7th grader at Marina Village Middle School. Carson, my brother is a 6th grader at the same school. We met Mr. Ranalli at a Town Hall Meeting in Cool, CA on October 7th and on October 16th had a private meeting with him at his office to discuss issues in El Dorado County.

Both of us are Boy Scouts--Cullen, 1st class and Carson, Tenderfoot. Now we are working on the merit badge, Citizenship in the Community. As a prerequisite, we attended the Town Hall Meeting and became interested in meeting with Supervisor Ranalli after learning at the meeting that there is either "very limited or no" Broadband service in District IV. This is due to District IV's topography. We are committed to help in getting Broadband service to all residents in El Dorado County. We believe as a community, we should all have the same opportunities and advantages in education and business. Internet is also important for safety. To accomplish this, everyone should have access to Broadband service, not just District I.

If you would like to talk about this further and let us know how we can help with a solution, please let us know. My email address: [redacted] and my Mom, Deborah's email address: [redacted]

Thank you for your interest and dedication to our county.

Sincerely,

Cullen S. McGuire
