Regarding **Board of Supervisors agenda item #13-0606** – Sacramento Placerville Transportation Corridor (SPTC). Dated Oct 1st, 2013

El Dorado Hills is excited at the possibility of having a quality multi-user trail system come through our community. **EDH Trails supports** having a class 1 trail while retaining a rugged single-track dirt trail. There is a very large support base from the walker/hiker/runner/road biker/mountain biker/equestrian coalition of users.

We ask that the county **plan** for the corridor's shared use while **optimizing community benefits** and to apply for **grants** to support completing the trail system to El Dorado Hills and Folsom.
