

Staff Report 3/24/15 # 18 2 # 19  
BS 3/24/15

*El Dorado County*  
*Chief Administrative Office*  
*Interoffice Memorandum*

**DATE:** March 24, 2015  
**TO:** Vickie Sanders  
**FROM:** Byron Saylor  
**SUBJECT:** Required Signage on the SPTC Corridor

The Parks and Recreation Commission appointed an ad hoc signage committee to develop a signage plan for the SPTC corridor. I have applied that signage plan to the 7 miles from the El Dorado County line to the town of Latrobe as you requested.

There are ten different crossings in that segment; six are trail crossings over the train tracks, three private crossings and one crossing at Latrobe road.

There are 193 signs that were identified required for both trail and rail use. Of the 193 signs identified in this section 127 is for trail use and 66 are for rail use. The chart below identifies the type sign number and the quantities:

Sign Type	Sign Number	Total Cost
Required – Rails	14,15,22,23	\$2,240.00
Required - Trail	1,3,5,16	\$1,335.00
Safety - Trail	8,11,17,19,20,21	\$2,325.00
Informational - Trail	2,7,12,13	\$640.00

The prices are for the signs only. This does not include post, hardware and employee time for installation.
