Dear Supervisors Mikulaco, Frentzen, Veerkamp, Ranalli, and Novasel,

The voters expect ALL of Measure E to be implemented as intended. **That includes the provision that the county use Caltrans data to analyze level of service on US 50.**

I was present at the Board meeting last year during which it was amply demonstrated that the County is either unable or unwilling to provide traffic data that bears any resemblance to the reality county residents experience. Do we need to do it again in court?

County voters may not understand the complexities of land use policy, but they do understand traffic, and most of us have experienced Level of Service F on 50 on many occasions. That's why Measure E passed. This is one area where any attempt to pull a fast one behind closed doors simply will not work.

Please direct staff to implement Measure E as written, in full, and as the voters intended. And please bear in mind that every communication like this you receive speaks not just for the writer, but for dozens of residents who do not have the time or inclination to communicate with you, but who agree with the content. We who speak up are just the tip of a large and growing iceberg.

Regards,  
Mary Lou Giles  
Cameron Park.

Dear Supervisors,

Please do not mess with Measure E, it needs to be implemented in its entirety. We the people passed this measure, now it's your responsibility to make sure it gets implemented.

Sincerely,

Marc Chaisson

Dear BOS's,

**ENFORCE MEASURE E!** It was voted on by the people and you don't

have any authority to change it or not enforce it.

We are watching what you are doing and your pay-for-play deal with the developers.

Dear Supervisor,

Measure E was passed by the voters of El Dorado County and the supervisors shall look at the "intent" of the measure and not "water" down how the residents understood this measure.

What is the intent? It is very clear that the voters' intent was to apply the clauses of Measure Y to prevent traffic congestion which flows on and off Highway 50. The voters want to use CAL TRANS data not solely depend upon the El Dorado Transportation Department or some "committee" of citizens with DOT as rumored.

It is your responsibility to use your discretion to implement Measure E as your constituents have voted, and not allow any loopholes to counter the intent of the people.

Sincerely,

Charlet and Joe Burcin  
EDH residents

Dear Supervisors,

The people you serve passed Measure E by a strong margin. It is *the law of the land* in El Dorado County.

Your job is to see to it that the provisions of Measure E are implemented according to its clear intent, and not to water it down or thwart it by inaction or subterfuge or twisting Measure E's clear message through pro-development "interpretations" favored by the Developer patrons of some of you.

Supervisor sabotaging of Measure E will be dealt with adversely at the polls this November 8th and two years from now for others of you. Many of you think the voters are asleep but they are not. Be forewarned.

Implement Measure E honestly.

Thank you.

Richard Boylan, Ph.D.
