

My name is Doreen Barton and I live at 1244 Uplands Drive.

When this project was first brought to my attention I downloaded all documents from the county website to familiarize myself with the project. It was at that time I realized that the documents on-line were inconsistent with the General Plan, etc.

The 2% issue is located in the "Traffic Impact Study Protocols and Procedures" dated June 2008, El Dorado County DOT, paragraph 4.

I was attempting to use specific records to locate a loop hole or determine why the decisions were made. However, as you saw I can not objectively address these issues relating to the roadways. My son was killed in an accident in 1987 on Malcolm Dixon Road, he was approaching the bridge closest to Salmon Falls Road when a jogger stepped into the roadway that ultimately caused the accident which resulted in his death. This road is too close to my heart to show any objectivity.

I did email the county supervisors and request they not approve the Farren Project as proposed. I requested they continue the plan to access Green Valley Road on the East side of the church to reduce our traffic and have the Farren project access Salmon Falls Road with their gated community. I also stated that there is already a safety issue with the number of homes that must access Malcolm Dixon Road to get out in case of an emergency.

I also talked with Jim Ware, Eileen's supervisor at DOT and explained the breakdown and lack of follow through on her behalf. I do believe that this has escalated because of the lack of response from the county and their representatives.

I am interested to see if DOT uses the map they provided at the September 16 meeting, which is different from the one the Farren architect developed and presented to the Planning Commission when their decision was made.

If I can provide you any help in the background, feel free to let me know, I can no longer attend this type of meeting or hearing.

Thank You
Doreen Barton

This makes us want to work toward moving this project off of Malcolm Dixon Road and onto Salmon Falls Road all that much more - We look to you to support the safest choice for all.

Residents of Uplands and Malcolm Dixon Road
