Section 4.2 Tahoe EIP Individual Project Summaries

Apache Avenue/US 50 Intersection Signalization

CIP Project Summary

Project No: 73120 Type: Intersection Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

Click for Interactive Map

Project Description:

Perform Operational Study and Signalize Intersection at the Apache/Hwy 50 intersection. Coordinate with Caltrans to perform an operational study on this intersection to evaluate traffic flow and circulation. The study will also include a regional component which analyzes the entire Meyers area from Chiapa Road through State Route 89/US 50 intersection to Sawmill Road. US 50 is a state highway and as such the state should participate in advancement of a project to signalize this intersection. Regional Surface Transportation Program funding from Tahoe Regional Planning Agency (TRPA) is programmed for the operational study.

Expenditures thru 6/30/2015: \$143,503 Project Initiation Date: 12/06/10

Chiapa Erosion Control Project

CIP Project Summary

Type: Erosion Control - (EIP) Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

Click for Interactive Map

Project Description:

The Chiapa Erosion Control Project encompasses the streets of Chiapa Drive, Tolteca Court and Taos Court. The main goal of the Project is to improve the clarity of Lake Tahoe by reducing the detrimental water quality impacts of Tahoe Paradise Unit No. 34 subdivision on Lake Tahoe clarity. The objective of the Project is the reduction in the transport of fine sediment from the Project area by constructing water quality Best Management Practices (BMPs) prior to reaching the Upper Truckee River to the maximum extent practicable.

Expenditures thru 6/30/2015: \$0 Project Initiation Date: 06/23/09

Country Club Heights Erosion Control Project

CIP Project Summary

Type: Erosion Control - (EIP) Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

Click for Interactive Map

Project Description:

The Country Club Heights Erosion Control Project is within the Country Club Heights subdivision (Units 1-5), more specifically between Crystal Air Drive at the upper southerly boundary to U.S. Highway 50 to the north and Thunderbird Drive at the upper westerly boundary to the Upper Truckee River to the west. The main goal of this Project is to reduce very fine/fine sediment from the County right-of-way from reaching the Upper Truckee River near Elks Club Road to the Total Maximum Daily Level (TMDL) set by Lahontan Regional Water Quality Control Board under the National Pollution Discharge Elimination System (NPDES) permit conditions.

Expenditures thru 6/30/2015: \$14,853 Project Initiation Date: 07/01/11

CSA # 5 Upper Area Erosion Control Project

CIP Project Summary

Type: Erosion Control - (EIP) Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

Click for Interactive Map

Project Description:

The CSA # 5 Upper Area Erosion Control Project includes the developed portions of the Tahoe Cedars subdivision southwest of Highway 89 between the El Dorado County Line and Poplar Street. The goal of the Project is to reduce the concentration of fine sediment in the storm water which exits the Project area before reaching Lake Tahoe. The funding for this Project will be provided by the California Tahoe Conservancy Soil Erosion Control Grants Program.

Expenditures thru 6/30/2015: \$324,944 Project Initiation Date: 03/25/13

CSA #5 Erosion Control Project

CIP Project Summary

Project No: 95157 Type: Erosion Control - (EIP) Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

Click for Interactive Map

Project Description:

The Project area is located in Tahoma on the west shore of Lake Tahoe, and is bounded by Lake Tahoe and First Avenue to the east, the El Dorado/Placer County line to the north, Chinkapin Road and Placer Street to the west and Cedar Street to the South. The Project area is identified in the Tahoe Regional Planning Agency's (TRPA) Environmental Improvement Project (EIP) list as project number 01.01.01.0067 (formerly No. 10062) and is located within TRPA designated Priority 2 Watershed 56 (General Creek).

The current Project will address areas of interest that were not addressed by the CSA #5 Upper Area Erosion Control Project (CIP No. 95196). It is anticipated that all of the proposed improvements for this Project will be modifications to existing infrastructure within the County rights-of-way.

Expenditures thru 6/30/2015: \$81,992 Project Initiation Date: 10/26/98

Forest View Water Quality Project

CIP Project Summary

Type: Erosion Control - (EIP) Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

Click for Interactive Map

Project Description:

The Forest View Water Quality Project is within the Rubicon Properties Unit No. 2 subdivision which is roughly bordered by Lonely Gulch to the north, Woodland Drive to the east, Highland Drive to the south, and the Forest View to the west . As part of a previously constructed water quality project, most sources of erosion in the area were addressed, but had minimal treatment. The previous project also helped to connect the storm water flows to Lonely Gulch. The main goal of this Project are to reduce the very fine and fine sediment which will improve the clarity of Lake Tahoe.

Expenditures thru 6/30/2015: \$364,227 Project Initiation Date: 04/01/13

Golden Bear Erosion Control Project

CIP Project Summary

Type: Erosion Control - (EIP) Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

Click for Interactive Map

Project Description:

The Golden Bear Erosion Control Project is within the Tahoe Regional Planning Agency (TRPA) Plan Area Statement area 115-Golden Bear, 095-Trout/Cold Creek, and 100-Truckee Marsh (Figure A). In addition it is indentified in the Environmental Improvement Program (EIP) as Area #703 requiring erosion control and water quality treatment Best Management Practices (BMPs). The subdivision was constructed with conveyance systems in the County ROW, including curb and gutter, drainage inlets, and underground storm drain pipe. These systems were designed to convey, but not to treat the storm water. The main goal of the Project is to reduce the very fine and fine sediment from the Montgomery Estates Unit No. 7 subdivision which will improve the clarity of Lake Tahoe.

Expenditures thru 6/30/2015: \$317,358 Project Initiation Date: 12/15/10

Highway 89 Class 1 Trail

CIP Project Summary

Type: Pedestrian Way and Bike Path

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

Click for Interactive Map

Project Description:

The Class I bikeway along State Route 89 from Portal Road to US Highway 50 in Christmas Valley is intended to improve the regional bicycle path network by providing a critical link through the Christmas Valley area. The purpose of the project is to provide access to local businesses, schools, and offices for bicyclists and pedestrians, to reduce vehicular transportation, and to enhance recreational opportunities within the Lake Tahoe Basin. This bicyle facility will connect to the existing Pat Lowe Memorial Bike Path in community of Meyers.

Expenditures thru 6/30/2015: \$0 Project Initiation Date: 02/13/07

Project Description:

This is one of three Project components within this area, CIP No. 95186 which contains a Class I multi-use path and the restoration of the stream environment zone (SEZ) (CIP No. 95175) to its natural function near the intersection of Lake Tahoe Blvd and Sawmill Road. This component, along with CIP No. 95175 is combined as one. The Project will implement erosion source controls, storm water treatment facilities and SEZ enhancements along the Lake Tahoe Boulevard corridor from Clear View Drive to Industrial Ave. The Project intends to connect the Class 2 bike lanes at Clear View Drive and tie into the Class 1 bike facilities at Sawmill Road.

Expenditures thru 6/30/2015: \$252,005 Project Initiation Date: 02/15/07

Project Description:

The Meyers Stream Environment Zone/Erosion Control Project is located in Tahoe Paradise-Meadowvale, Tahoe Paradise-Mandan and Meyers Residential. The main goal of the Project is to improve the clarity of Lake Tahoe by reducing the detrimental water quality impacts of the Meyers residential area on Lake Tahoe clarity. The objective of the Project is the reduction in the transport of fine sediment from the Project area by constructing water quality Best Management Practices (BMPs) within the Project area. This Project will be split into several areas with the main area focused on the US 50/Meyers corridor area based on the Pollutant Load reductions models.

Expenditures thru 6/30/2015: \$340,591 Project Initiation Date: 12/15/10

Montgomery Estates Area 2 Erosion Control Project

Financing Plan & Tentative Schedule

Project No: 95170 Type: Erosion Control - (EIP) Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

Click for Interactive Map

Project Description:

The Montgomery Estates Area 2 Erosion Control is bounded by Pioneer Trail to the south, Trout Creek to the east and Cold Creek to the west. The main goal of the Project is to improve the clarity of Lake Tahoe by reducing the detrimental water quality impacts of the Montgomery Estates subdivision on Lake Tahoe clarity. The objective of the Project is the reduction in the transport of fine sediment from the Project area by constructing water quality Best Management Practices (BMPs) prior to reaching Cold Creek and Trout Creek to the maximum extent practicable.

Expenditures thru 6/30/2015: \$838,807 Project Initiation Date: 12/15/01

O TIFORWITE

Passenger Facility

Financing Plan & Tentative Schedule

Project No: 95838 Type: Miscellaneous Supervisor District(s) 5

Project Description:

Transit passenger facilities will be constructed within the unincorporated El Dorado County portion of the Tahoe Basin. The construction of this transit passenger facility will aid in achieving regional transportation goals related to decreasing dependency on the private automobile by making transit more user friendly for both the local population as well as the high number of visitors who frequent the area. Through the implementation of this project, El Dorado County hopes to increase transit ridership to assist in the protection of the Lake Tahoe environment through a reduction in Vehicle Miles Traveled. These facilities will aid in the operation of the system by making it more enticing and visible to the community.

Expenditures thru 6/30/2015: \$0 Project Initiation Date: 05/05/09

Sawmill 2B Bike Path and Erosion Control Project

Financing Plan & Tentative Schedule

Type: Pedestrian Way and Bike Path

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

Click for Interactive Map

Project Description:

The Sawmill 2 Bike Path and Erosion Control Project (CIP No. 95165) was initiated as one Project. The Project area covered Sawmill Road from US Hwy 50 to Lake Tahoe Boulevard. Due to funding constraints and seasonal construction constraints, the Project was split into two Phases (2A and 2B). The Sawmill 2B Bike Path and Erosion Control Project area covers from US Hwy 50 to the end of Phase 2A near Echo View Drive. The Project includes, but is not limited to, connecting the multi-use path to the existing multi-use path facility at US Hwy 50, installing erosion control best management practices (BMPs) and revegetation.

Expenditures thru 6/30/2015: \$1,714,982 Project Initiation Date: 04/18/11

Project Description:

Treat eroding cut and fill slopes in County right-of-way. Reduce the very fine and fine sediment from the urban watersheds. Revegetation of disturbed areas. Install curb and gutter, rock-lined channels, sediment basins. Restore SEZ. Perform right-of-way acquisitions. This Project will most likely be split into several phases. It is anticipated that other grant funding will be available in the future through EIP grant funding programs available to the County.

Expenditures thru 6/30/2015: \$133,584 Project Initiation Date: 12/06/10

Tahoe Hills Erosion Control Project

Financing Plan & Tentative Schedule

Project No: 95171 Type: Erosion Control - (EIP) Supervisor District(s) 5

LOCATION MAP

Click for Interactive Map

Project Description:

The Tahoe Hills Erosion Control Project is within the Tahoe Hills subdivision which is bordered by Highway 89 to the north and south, and by Lake Tahoe to the east . The Project area encompasses County ROW, Caltrans ROW, California Tahoe Conservancy, United States Forest Service, and privately owned property. The main goal of the Project is to reduce the very fine and fine sediment from the Tahoe Hills subdivision which will ultimately improve the clarity of Lake Tahoe.

Expenditures thru 6/30/2015: \$306,868 Project Initiation Date: 11/15/09
