**SUBJECT: Addendum No. 1
Meyers Stream Environment Zone/ Erosion Control Project
Contract No. PW 16-31121, CIP No. 95179**

Submit proposals for this work with the understanding and full consideration of this addendum. The revisions declared in this addendum are essential parts of the Contract.

ITEM NO.	LOCATION, PAGE, OR DRAWING NO.	DESCRIPTION OF CHANGE
1.01	Special Provisions – §5-1.20B(1) (page SP-11)	In section 5-1.20B(1) add the following to bulleted item 1: Tahoe Regional Planning Agency Permit (#EIPC2016-0006).
1.02		In section 5-1.20B(1) add the following to bulleted item 4: The Notice of Intent WDID No. 6A09LT000079 is active and the project is covered under the Construction General NPDES Permit for the Lake Tahoe Basin, Board Order No. R6T-2017-0010.
1.03		In section 5-1.20B(1) add the following to bulleted item 5: Amended Board Order No. R6T-2016-0045A1, Clean Water Act Section 401 Water Quality Certification, WDID No. 6A091606002. – Attachment A

ITEM NO.	LOCATION, PAGE, OR DRAWING NO.	DESCRIPTION OF CHANGE
1.04	Special Provisions – Appendix B (page AB-1 through AB-43)	Federal Prevailing Wages Replace the federal prevailing wages rates included in Appendix B of the Special Provisions with Attachment B attached to this addendum.

Indicate receipt of this addendum by filling in the number of this addendum in the space provided on the signature page of the proposal.

Holders who have already mailed their proposal can contact Patty Scott at (530) 573-7900 (email: patricia.scott@edcgov.us) or Donald Palaroan at (530) 573-7920 (email: donaldo.palaroan@edcgov.us) to arrange return of their proposal.

Inform all suppliers and subcontractors as necessary.

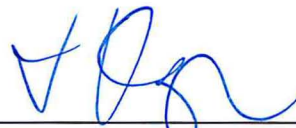

The Department of Transportation is only sending this addendum by posting on QuestCDN's website at: <https://www.questcdn.com/>.

If you are not a Contract Documents Holder, but request a set of documents to bid on this project, you must comply with the requirements of this addendum when submitting your bid.

Amended Board Order No. R6T-2016-0045A1, Clean Water Act Section 401 Water Quality Certification for Meyers Stream Environment Zone Erosion Control Project, Meyers, El Dorado County, WDID No. 6A091606002

The California Regional Water Quality Control Board, Lahontan Region (Water Board) has received a complete amended Clean Water Act (CWA) section 401 Water Quality Certification (WQC) application and application filing fee from El Dorado County Transportation Division (Applicant) for the Meyers Stream Environment Zone Erosion Control Project (Project) in El Dorado County. The application for an amended WQC received on April 3, 2017, was deemed complete on April 3, 2017. The amended WQC application expands the Project area, extent of impacts to stream environment zones, and environmental benefits/mitigation. The findings for the prohibition exemption granted in Board Order No. R6T-2016-0045 (original WQC) continue to be applicable for the amended Project description and amended WQC. This WQC hereby assigns this Project the following reference number: Waste Discharge Identification (WDID) No. 6A091606002. Please use this reference number in all future communications regarding this Project. This amendment denotes changes using ~~red-strike-out~~ text for deletions and red underline text for additions.

Any person aggrieved by this action of the Water Board may petition the State Water Resources Control Board (State Water Board) to review the action in accordance with Water Code section 13320 and California Code of Regulations (CCR), title 23, sections 2050 and following. The State Water Board must receive the petition by 5:00 p.m., 30 days after the date of this WQC, except that if the thirtieth day following the date of this WQC falls on a Saturday, Sunday, or state holiday, the petition must be received by the State Water Board by 5:00 p.m. on the next business day. Copies of the law and regulations applicable to filing petitions may be found on the Internet at: http://www.waterboards.ca.gov/public_notices/petitions/water_quality or will be provided upon request.

PROJECT DESCRIPTION

Table of Project Information:

WDID Number	6A091606002									
Applicant	Donaldo Palaroan, P.E. El Dorado County Transportation Division 924B Emerald Bay Road South Lake Tahoe, CA 96150									
Agent	None									
Project Name	Meyers Stream Environment Zone Erosion Control Project, Project									
Project Purpose and Description	The Project purpose is to install water quality and erosion control features. Project elements include replacing failing culverts; installing sediment traps, rock bowls, and rock-lined channels, and shallow detention features; and revegetating disturbed areas.									
Project Type	<u>Erosion Control Project</u> – non-restoration bank stabilization									
Project County	El Dorado									
Project Address or other Locating Information	Community of Meyers in the drainages near <u>Bakersfield Street, Country Club Drive, East San Bernardino Avenue, Sioux Street, Ute Street</u> , Santa Fe Road, Pioneer Trail, San Diego Street, Choctaw Street, and Arapahoe Street.									
Location Latitude/Longitude	Latitude: 38.861353, Longitude: -120.013031									
Hydrologic Unit(s)	Lake Tahoe Hydrologic Unit, 634.00, South Tahoe Hydrologic Area (634.10)									
Overall Project Area	328 acres (subdivision)									
Receiving Water(s) Name	Minor surface waters tributary to the Upper Truckee River									
Water Body Type(s)	Ephemeral drainages									
Designated Beneficial Uses	MUN, AGR, GWR, REC-1, REC-2, COMM, COLD, WILD, , SPWN									
Potential Water Quality Impacts	Sediment and other construction materials entering waters									
Area of Water(s) Within the Overall Project Area	0.54 acres <u>10.3 acres</u>									
Impacts of Fill and Excavation to Waters of the State, including Waters of the U.S.	Water-body Type	Temporary			Permanent					
					Physical Loss of Area			Degradation of Ecological Condition		
	Acres	Linear Feet	Cubic Yards	Acres	Linear Feet	Cubic Yards	Acres	Linear Feet	Cubic Yards	
	Lake									
	Riparian Zone									
	Stream Channel	0.159 <u>2.23</u>	482 <u>4,595</u>					0.086 <u>0.79</u>	570 <u>4,577</u>	234.5 <u>4,364</u>
Wetland										
Federal Permit(s)	The Applicant has applied for U.S. Army Corps of Engineers (USACOE) authorization to proceed under a Nationwide Permit No. 3 <u>14</u> pursuant to CWA section 404.									

Table of Project Information Continued:

Non-Compensatory Mitigation	Work will be conducted in fall when conditions are expected to be relatively dry. Standard construction BMPs (temporary sediment and erosion controls, good housekeeping, etc.) will be used during construction. The Project involves installing permanent BMPs to improve water quality as part of the Lake Tahoe Environmental Improvement Program. The Project's purpose is to improve storm water quality runoff by rehabilitating and enhancing failing drainage facilities. Permanent impacts will be mitigated onsite by restoring the capacity and function of ephemeral drainages and reducing further erosion. Temporary impacts will be mitigated by regrading and revegetating disturbed areas.																																																																																																												
Compensatory Mitigation	<table><tr><th colspan="7">Mitigation for Temporary Impacts (CIWQS mitigation/restoration table side B)</th></tr><tr><th>Aquatic Resource Type</th><th>Unit</th><th>Establishment</th><th>Re-establishment</th><th>Rehabilitation</th><th>Enhancement</th><th>Preservation</th></tr><tr><td>Wetland</td><td>Acres</td><td></td><td>0.08</td><td></td><td></td><td></td></tr><tr><td>Lake</td><td>Acres</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td rowspan="2">Riparian Zone</td><td>Acres</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>Linear Feet</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td rowspan="2">Stream Channel</td><td>Acres</td><td></td><td>0.159 0.6</td><td></td><td>2.66</td><td></td></tr><tr><td>Linear Feet</td><td></td><td>482 1,128</td><td></td><td>2,500</td><td></td></tr><tr><th colspan="7">Mitigation for Permanent Degradation of Ecological Condition (CIWQS mitigation/restoration table side B)</th></tr><tr><th>Aquatic Resource Type</th><th>Unit</th><th>Establishment</th><th>Re-establishment</th><th>Rehabilitation</th><th>Enhancement</th><th>Preservation</th></tr><tr><td>Wetland</td><td>Acres</td><td></td><td></td><td></td><td>0.01</td><td>0.06</td></tr><tr><td>Lake</td><td>Acres</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td rowspan="2">Riparian Zone</td><td>Acres</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>Linear Feet</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td rowspan="2">Stream Channel</td><td>Acres</td><td>0.033 0.16</td><td></td><td></td><td>0.83</td><td>0.052 0.13</td></tr><tr><td>Linear Feet</td><td>207 2,141</td><td></td><td></td><td>1,104</td><td>363 1,104</td></tr></table>	Mitigation for Temporary Impacts (CIWQS mitigation/restoration table side B)							Aquatic Resource Type	Unit	Establishment	Re-establishment	Rehabilitation	Enhancement	Preservation	Wetland	Acres		0.08				Lake	Acres						Riparian Zone	Acres						Linear Feet						Stream Channel	Acres		0.159 0.6		2.66		Linear Feet		482 1,128		2,500		Mitigation for Permanent Degradation of Ecological Condition (CIWQS mitigation/restoration table side B)							Aquatic Resource Type	Unit	Establishment	Re-establishment	Rehabilitation	Enhancement	Preservation	Wetland	Acres				0.01	0.06	Lake	Acres						Riparian Zone	Acres						Linear Feet						Stream Channel	Acres	0.033 0.16			0.83	0.052 0.13	Linear Feet	207 2,141			1,104	363 1,104

Fees Received	\$200.00 \$720.00																																																																																																												
Estimated Annual Active Discharge Fee ¹	\$0 \$200.00																																																																																																												
Estimated Post-Discharge Monitoring Fee ¹	\$0 \$100.00 (An annual fee of \$100.00 will be assessed each fiscal year beginning July 1 st during the Post-Discharge Monitoring Period until the Water Board issues a Notice of Project Complete Letter to the discharger.)																																																																																																												

¹ The actual Annual Active Discharge Fee will be calculated using the fee schedule in effect at the time the annual fee is assessed per California Code of Regulations, Title 23, section 2200(a)(3).

RESPONSIBILITY FOR REQUESTING A NOTICE OF COMPLETION OF DISCHARGES LETTER OR NOTICE OF PROJECT COMPLETE LETTER

Upon the completion of the Project, the Applicant is responsible for contacting the Water Board to request a Notice of Completion of Discharges Letter which will be required to finalize the Project and discontinue fee assessments. In addition, if the Project is subject to ongoing water quality monitoring or compensatory mitigation monitoring, a request for a Notice of Project Complete Letter is required in order to finalize the Project and discontinue future fee assessments.

WATER QUALITY CONTROL PLAN WASTE DISCHARGE PROHIBITION

The Water Board has adopted a *Water Quality Control Plan for the Lahontan Region* (Basin Plan) which, in Chapter 5.2, specifies the following discharge prohibition:

“3. The discharge attributable to human activities of any waste or deleterious material to Stream Environment Zones (SEZs) in the Lake Tahoe HU is prohibited.”

The Project involves the discharge attributable to human activities of waste to surface waters within a SEZ in the Lake Tahoe HU.

EXEMPTION CRITERIA AND FINDINGS

The Water Board may grant exemptions to Prohibition 3, above, under the following circumstances:

For erosion control projects if all of the following findings can be made:

- (a) There is no reasonable alternative, including relocation, that avoids or reduces the extent of encroachment below the highwater rim of Lake Tahoe, within the 100-year floodplain, or within the SEZ;

The Project is intended to restore, protect, and enhance the capacity and function of existing SEZs, channels, and water quality treatment features. These features are located within SEZs; therefore, there is no reasonable alternative to avoid encroachment into the SEZs.

- (b) Impacts are fully mitigated.

The Project incorporates appropriate temporary and permanent erosion controls that will restore, protect, and enhance the capacity and function of the SEZs. Additionally, approximately 0.01 acre of existing pavement will be re-established as SEZ and approximately ~~0.28~~ 0.75 acres of SEZ will be enhanced by retaining additional runoff within the SEZ. The Project fully mitigates impacts to SEZs.

EXEMPTION GRANTED

Resolution No. R6T-2015-0038 delegates to the Executive Officer the authority to grant exemptions to Basin Plan waste discharge prohibitions. The Project meets the conditions in the Basin Plan for granting an exemption. A notice of exemption was posted on the Water Board website and distributed through an interested-persons mailing list, allowing at least 10 days for comments to be submitted.

As demonstrated above, the Project meets the conditions and criteria for an exemption to the waste discharge prohibition. The Project is hereby granted an exemption to the above-cited waste discharge prohibition.

CEQA COMPLIANCE

El Dorado County adopted a Mitigated Negative Declaration (State Clearinghouse No. 2016032081) on July 19, 2016, and filed a Notice of Determination on July 19, 2016 for the Meyers Stream Environment Zone Erosion Control Project, ~~Project~~ **Project**, pursuant to CEQA.

The Water Board, acting as a CEQA Responsible Agency in compliance with CCR, title 14, section 15096, has considered El Dorado County's Mitigated Negative Declaration (MND) for the Project and mitigation measures incorporated into the MND to reduce potentially significant water quality impacts to less than significant with mitigation. As a result of the analysis, the Water Board finds, with the conditions required herein, the mitigation measures in the MND are adequate to reduce potentially significant water quality impacts to less than significant.

CALIFORNIA ECOATLAS

It has been determined through regional, state, and national studies that tracking of mitigation/restoration projects must be improved to better assess the performance of these projects, following monitoring periods that last several years. In addition, to effectively carry out the State's Wetlands Conservation Policy of no net loss to wetlands, the State needs to closely track both aquatic habitat losses and mitigation/restoration project success. Therefore, the Applicant is required to provide Project information related to impacts and mitigation/restoration measures (see Additional Conditions of this WQC) to EcoAtlas using the Project Tracker website, <http://ptrack.ecoatlas.org>. Instructions regarding how to request a user name and password, and how to upload Project information can also be found at the Project Tracker website. Additional information regarding the Water Board's requirement can be found at: http://www.waterboards.ca.gov/lahtontan/water_issues/programs/clean_water_act_401/index.shtml. Additional information regarding EcoAtlas can be found at www.ecoatlas.org.

SECTION 401 WATER QUALITY CERTIFICATION

Authority

Section 401 of the CWA (33 U.S.C., paragraph 1341) requires that any applicant for a CWA section 404 permit, who plans to conduct any activity that may result in discharge of dredged or fill materials to waters of the U.S., must provide to the permitting agency a certification that the discharge will be in compliance with applicable water quality standards of the state in which the discharge will originate. No section 404 permit may be granted (or valid) until such certification is obtained. The Applicant submitted a complete application and the fees required for WQC under section 401 for the Project. The Applicant has applied for USACOE authorization to proceed under Nationwide Permit No. **3 14** pursuant to CWA section 404.

CCR, title 23, section 3831(e) grants the Water Board Executive Officer the authority to grant or deny WQC for projects in accordance with CWA section 401. The Project qualifies for such WQC.

Standard Conditions

Pursuant to CCR, title 23, section 3860, the following standard conditions are requirements of this WQC:

1. This WQC action is subject to modification or revocation upon administrative or judicial review, including review and amendment pursuant to Water Code section 13330 and CCR, title 23, section 3867.
2. This WQC action is not intended and must not be construed to apply to any discharge from any activity involving a hydroelectric facility requiring a Federal Energy Regulatory Commission (FERC) license unless the pertinent WQC application was filed pursuant to CCR title 23, section 3855(b) and the application specifically identified that a FERC license or amendment to a FERC license for a hydroelectric facility was being sought.
3. The validity of any non-denial WQC action must be conditioned upon total payment of the full fee required under CCR title 23, section 3833, unless otherwise stated in writing by the certifying agency.
4. Neither Project construction activities nor operation of the Project may cause a violation of the *Water Quality Control Plan for the Lahontan Region* (Basin Plan), may cause a condition or threatened condition of pollution or nuisance, or cause any other violation of the Water Code.
5. The Project must be constructed and operated in accordance with the Project described in the WQC application that was submitted to the Water Board. Deviation from the Project description constitutes a violation of the conditions upon which this WQC was granted. Any significant changes to this Project that would have a significant or material effect on the findings, conclusions, or conditions of this WQC, including Project operation, must be submitted to the Executive Officer for prior review and written approval.
6. This WQC is subject to the acquisition of all local, regional, state, and federal permits and approvals as required by law. Failure to meet any conditions contained herein or any conditions contained in any other permit or approval issued by the state of California or any subdivision thereof may result in the revocation of this WQC and civil or criminal liability.
7. The Water Board may add to or modify the conditions of this WQC as appropriate to implement any new or revised water quality standards and implementation plans adopted or approved pursuant to the Porter-Cologne Water Quality Control Act or section 303 of the CWA, or as appropriate to coordinate the operations of this Project with other projects where coordination of operations is reasonably necessary to achieve water quality standards or protect the beneficial uses of water. Notwithstanding any more specific conditions in this WQC, the Project must be constructed and operated in a manner consistent with all water quality standards and implementation plans adopted or approved pursuant to the Porter-Cologne Water Quality Control Act or section 303 of the CWA.

8. This WQC does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under the California Endangered Species Act (Fish and Game Code sections 2050, et seq.) or the federal Endangered Species Act (16 U.S.C. sections 1531, et seq.). If a "take" will result from any act authorized under this WQC, the Applicant must obtain authorization for the take prior to construction or operation of the Project. The Applicant is responsible for meeting all applicable requirements of the Endangered Species Act for the Project authorized under this WQC.

Additional Conditions

Pursuant to CCR title 23, section 3859(a), the following additional conditions are requirements of this WQC:

1. Construction equipment must be clean and free from oil, grease, and loose metal material and must be removed from service if necessary to protect water quality.
2. Debris, cement, concrete (or wash water therefrom), oil or other petroleum products must not be allowed to enter into or be placed where they may be washed from the Project site by rainfall or runoff into waters of the state. When operations are completed, any excess material must be removed from the Project work area and any areas adjacent to the work area where such material may be transported into waters of the state.
3. The Applicant must immediately notify Water Board staff by telephone whenever ~~a violation of this order and/or~~ an adverse condition occurs as a result of this discharge. Such a condition includes, but is not limited to, a violation of the conditions of this WQC, a significant spill of petroleum products or toxic chemicals, or damage to control facilities that would cause noncompliance. ~~Pursuant to CWC section 13267(b), a~~ A written notification ~~of the violation and/or~~ adverse condition must be provided to the Water Board within two weeks of occurrence. The written notification must identify the ~~violation and/or~~ adverse condition, describe the actions taken or necessary to remedy the condition, and specify a timetable, subject to any modifications by Water Board staff, for the remedial actions.
4. An emergency spill kit must be at the Project site at all times.
5. The Applicant must permit Water Board staff or its authorized representative upon presentation of credentials:
 - a. Entry onto Project premises, including all areas on which Project activities, including mitigation/restoration Project activities, are located or in which records are kept.
 - b. Access to copy any record required to be kept under the terms and conditions of this WQC.
 - c. Inspection of any treatment equipment, monitoring equipment, or monitoring method required by this WQC.
6. The Applicant must ~~ensure that Contractor employs necessary measures to~~ prevent the introduction or spread of noxious/invasive weeds within the Project and staging areas. These measures may include the removal of onsite infestations, the cleaning of all equipment and gear that has been in an infested site, the use of weed-free erosion control materials (including straw), and the use of weed-free seeds and plant material for revegetation of disturbed areas.

7. By **September 30, 2017**, the Applicant is required to upload Project information (all information fields required by EcoAtlas), including a project map (either using upload or draw polygon features) to the following website: <http://ptrack.ecoatlas.org/>. Amendments and monitoring reports associated with the Project must also be updated/uploaded on EcoAtlas (using the "Files and Links" tab under "Projects" in EcoAtlas).

Enforcement

1. In the event of any violation or threatened violation of the conditions of this WQC, the violation or threatened violation must be subject to any remedies, penalties, process or sanctions as provided for under state law. For purposes of CWA section 401(d), the applicability of any state law authorizing remedies, penalties, process or sanctions for the violation or threatened violation constitutes a limitation necessary to assure compliance with the water quality standards and other pertinent requirements incorporated into this WQC.
2. In response to a suspected violation of any condition of this WQC, the State Water Board or the Water Board may require the holder of any permit or license subject to this WQC to furnish, under penalty of perjury, any technical or monitoring report the State Water Board or Water Board deems appropriate, provided that the burden, including costs, of the reports must be a reasonable relationship to the need for the reports and the benefits to be obtained from the reports.
3. In response to any violation of the conditions of this WQC, the Water Board may add to or modify the conditions of this WQC as appropriate to ensure compliance.

Section 401 Water Quality Certification Requirements Granted

I hereby issue this WQC certifying that any discharge from the referenced Project will comply with the applicable provisions of CWA sections 301 (Effluent Limitations), 302 (Water Quality Related Effluent Limitations), 303 (Water Quality Standards and Implementation Plans), 306 (National Standards of Performance), and 307 (Toxic and Pretreatment Effluent Standards), and with other applicable requirements of state law. This discharge is also regulated under State Water Board Order No. 2003-0017-DWQ, "General Waste Discharge Requirements for Dredge and Fill Discharges That Have Received State Water Quality Certification" which requires compliance with all conditions of this WQC.

Except insofar as may be modified by any preceding conditions, all WQC actions are contingent on (a) the discharge being limited and all proposed mitigation being completed in strict compliance with the Applicant's Project description and the terms specified in this WQC, and (b) compliance with all applicable requirements of the Basin Plan.

We look forward to working with you in your efforts to protect water quality. Please contact Dale Payne at dale.payne@waterboards.ca.gov, (530-542-5464), or Alan Miller at alan.miller@waterboards.ca.gov, (530-542-5430) if you have any questions or comments regarding this permit. **Electronic document submittal is required. Please send all communications to the Water Board's email address at Lahontan@waterboards.ca.gov and include your WDID No. and Project/Facility Name in the Subject Line.**

050 to 100 ft	\$2.00 per foot
101 to 150 ft	\$3.00 per foot
151 to 220 ft	\$4.00 per foot

SATURATION DIVING:

The standby rate shall apply until saturation starts. The saturation diving rate applies when divers are under pressure continuously until work task and decompression are complete. The diver rate shall be paid for all saturation hours.

DIVING IN ENCLOSURES:

Where it is necessary for Divers to enter pipes or tunnels, or other enclosures where there is no vertical ascent, the following premium shall be paid: Distance traveled from entrance 26 feet to 300 feet: \$1.00 per foot. When it is necessary for a diver to enter any pipe, tunnel or other enclosure less than 48" in height, the premium will be \$1.00 per foot.

WORK IN COMBINATION OF CLASSIFICATIONS:

Employees working in any combination of classifications within the diving crew (except dive supervisor) in a shift are paid in the classification with the highest rate for that shift.

SCOPE OF WORK

Includes the installation testing, service and maintenance, of the following systems which utilize the transmission and/or transference of voice, sound, vision and digital for commercial, education, security and entertainment purposes for the following TV monitoring and surveillance, background-foreground music, intercom and telephone interconnect, inventory control systems, microwave transmission, multi-media, multiplex, nurse call system, radio page, school intercom and sound, burglar alarms, and low voltage master clock systems.

A. SOUND AND VOICE TRANSMISSION/TRANSFERENCE SYSTEMS

Background foreground music Intercom and telephone interconnect systems, Telephone systems, Nurse call systems, Radio page systems, School intercom and sound systems, Burglar alarm systems, Low voltage master clock systems, Multi-media/multiplex systems, Sound and musical entertainment systems, RF systems, Antennas and Wave Guide.

B. FIRE ALARM SYSTEMS

Installation, wire pulling and testing

C. TELEVISION AND VIDEO SYSTEMS Television monitoring and surveillance systems, Video security systems, Video entertainment systems, Video educational systems, Microwave transmission systems, CATV and CCTV

D. SECURITY SYSTEMS Perimeter security systems
Vibration sensor systems Card access systems Access control systems Sonar/infrared monitoring equipment

E. COMMUNICATIONS SYSTEMS THAT TRANSMIT OR RECEIVE INFORMATION AND/OR CONTROL SYSTEMS THAT ARE INTRINSIC TO THE ABOVE LISTED SYSTEMS SCADA (Supervisory Control and Data Acquisition) PCM (Pulse Code Modulation) Inventory Control Systems Digital Data Systems
Broadband and Baseband and Carriers Point of Sale Systems VSAT Data Systems Data Communication Systems RF and Remote Control Systems Fiber Optic Data Systems
WORK EXCLUDED Raceway systems are not covered (excluding Ladder-Rack for the purpose of the above listed systems). Chases and/or nipples (not to exceed 10 feet) may be installed on open wiring systems. Energy management systems. SCADA (Supervisory Control and Data Acquisition) when not intrinsic to the above listed systems (in the scope). Fire alarm systems when installed in raceways (including wire and cable pulling) shall be performed at the electrician wage rate, when either of the following two (2) conditions apply:

1. The project involves new or major remodel building trades construction.
2. The conductors for the fire alarm system are installed in conduit.

GROUP 3: Asphalt milling machine; Cable backhoe; Combination backhoe and loader over 3/4 cu. yds.; Continuous flight tie back machine assistant to engineer or mechanic; Crane mounted continuous flight tie back machine, tonnage to apply; Crane mounted drill attachment, tonnage to apply; Dozer, slope brd; Gradall; Hydraulic excavator, up to 3 1/2 cu. yds.; Loader 4 cu. yds. and over; Long reach excavator; Multiple engine scraper (when used as push pull); Power shovels, up to and including 1 cu. yd.; Pre-stress wire

wrapping machine; Side boom cat, 572 or larger; Track loader 4 cu. yds. and over; Wheel excavator (up to and including 750 cu. yds. per hour)

GROUP 4: Asphalt plant engineer/box person; Chicago boom; Combination backhoe and loader up to and including 3/4 cu. yd.; Concrete batch plant (wet or dry); Dozer and/or push cat; Pull- type elevating loader; Gradesetter, grade checker (GPS, mechanical or otherwise); Grooving and grinding machine; Heading shield operator; Heavy-duty drilling equipment, Hughes, LDH, Watson 3000 or similar; Heavy-duty repairperson and/or welder; Lime spreader; Loader under 4 cu. yds.; Lubrication and service engineer (mobile and grease rack); Mechanical finishers or spreader machine (asphalt, Barber-Greene and similar); Miller Formless M-9000 slope paver or similar; Portable crushing and screening plants; Power blade support; Roller operator, asphalt; Rubber-tired scraper, self-loading (paddle-wheels, etc.); Rubber- tired earthmoving equipment (scrapers); Slip form paver (concrete); Small tractor with drag; Soil stabilizer (P & H or equal); Spider plow and spider puller; Tubex pile rig; Unlicensed constuction work boat operator, on site; Timber skidder; Track loader up to 4 yds.; Tractor-drawn scraper; Tractor, compressor drill combination; Welder; Woods-Mixer (and other similar Pugmill equipment)

GROUP 5: Cast-in-place pipe laying machine; Combination slusher and motor operator; Concrete conveyor or concrete pump, truck or equipment mounted; Concrete conveyor, building site; Concrete pump or pumpcrete gun; Drilling equipment, Watson 2000, Texoma 700 or similar; Drilling and boring machinery, horizontal (not to apply to waterliners, wagon drills or jackhammers); Concrete mixer/all; Person and/or material hoist; Mechanical finishers (concrete) (Clary, Johnson, Bidwell Bridge Deck or similar types); Mechanical burm, curb and/or curb and gutter machine, concrete or asphalt); Mine or shaft hoist; Portable crusher; Power jumbo operator (setting slip-forms, etc., in tunnels); Screed (automatic or manual); Self-propelled compactor with dozer; Tractor with boom D6 or smaller; Trenching machine, maximum digging capacity over 5 ft. depth; Vermeer T-600B rock cutter or similar

GROUP 6: Armor-Coater (or similar); Ballast jack tamper; Boom- type backfilling machine; Assistant plant engineer; Bridge and/or gantry crane; Chemical grouting machine, truck-mounted; Chip spreading machine operator; Concrete saw (self-propelled unit on streets, highways, airports and canals); Deck engineer; Drilling equipment Texoma 600, Hughes 200 Series or similar up to and including 30 ft. m.r.c.; Drill doctor; Helicopter radio operator; Hydro-hammer or similar; Line master; Skidsteer loader, Bobcat larger than 743 series or similar (with attachments); Locomotive; Lull hi-lift or similar; Oiler, truck mounted equipment; Pavement breaker, truck-mounted, with compressor combination; Paving fabric installation and/or laying machine; Pipe bending machine (pipelines only); Pipe wrapping machine (tractor propelled and supported); Screed (except asphaltic concrete paving);

Self- propelled pipeline wrapping machine; Tractor;
Self-loading chipper; Concrete barrier moving machine

GROUP 7: Ballast regulator; Boom truck or dual-purpose
A-frame truck, non-rotating - under 15 tons; Cargy lift or
similar; Combination slurry mixer and/or cleaner; Drilling
equipment, 20 ft. and under m.r.c.; Firetender (hot plant);
Grouting machine operator; Highline cableway signalperson;
Stationary belt loader (Kolman or similar); Lift slab
machine (Vagtborg and similar types); Maginnes internal
full slab vibrator; Material hoist (1 drum); Mechanical
trench shield; Pavement breaker with or without compressor
combination); Pipe cleaning machine (tractor propelled and
supported); Post driver; Roller (except asphalt); Chip
Seal; Self-propelled automatically applied concrete curing
mahcine (on streets, highways, airports and canals);
Self-propelled compactor (without dozer); Signalperson;
Slip-form pumps (lifting device for concrete forms); Tie
spacer; Tower mobile; Trenching machine, maximum digging
capacity up to and including 5 ft. depth; Truck- type loader

GROUP 8: Bit sharpener; Boiler tender; Box operator;
Brakeperson; Combination mixer and compressor
(shotcrete/gunite); Compressor operator; Deckhand; Fire
tender; Forklift (under 20 ft.); Generator;
Gunite/shotcrete equipment operator; Hydraulic monitor; Ken
seal machine (or similar); Mixermobile; Oiler; Pump
operator; Refrigeration plant; Reservoir-debris tug (self-
propelled floating); Ross Carrier (construction site);
Rotomist operator; Self-propelled tape machine; Shuttlecar;
Self-propelled power sweeper operator (includes vacuum
sweeper); Slusher operator; Surface heater; Switchperson;
Tar pot firetender; Tugger hoist, single drum; Vacuum
cooling plant; Welding machine (powered other than by
electricity)

GROUP 8-A: Elevator operator; Skidsteer loader-Bobcat 743
series or smaller, and similar (without attachments); Mini
excavator under 25 H.P. (backhoe-trencher); Tub grinder
wood chipper

ALL CRANES AND ATTACHMENTS

GROUP 1: Clamshell and dragline over 7 cu. yds.; Crane, over
100 tons; Derrick, over 100 tons; Derrick barge
pedestal-mounted, over 100 tons; Self-propelled boom-type
lifting device, over 100 tons

GROUP 2: Clamshell and dragline over 1 cu. yd. up to and
including 7 cu. yds.; Crane, over 45 tons up to and
including 100 tons; Derrick barge, 100 tons and under;
Self-propelled boom-type lifting device, over 45 tons;
Tower crane

GROUP 3: Clamshell and dragline up to and including 1 cu.
yd.; Cranes 45 tons and under; Self-propelled boom-type
lifting device 45 tons and under;

GROUP 4: Boom Truck or dual purpose A-frame truck, non-rotating over 15 tons; Truck-mounted rotating telescopic boom type lifting device, Manitex or similar (boom truck) over 15 tons; Truck-mounted rotating telescopic boom type lifting device, Manitex or similar (boom truck) - under 15 tons;

PILEDRIVERS

GROUP 1: Derrick barge pedestal mounted over 100 tons; Clamshell over 7 cu. yds.; Self-propelled boom-type lifting device over 100 tons; Truck crane or crawler, land or barge mounted over 100 tons

GROUP 2: Derrick barge pedestal mounted 45 tons to and including 100 tons; Clamshell up to and including 7 cu. yds.; Self-propelled boom-type lifting device over 45 tons; Truck crane or crawler, land or barge mounted, over 45 tons up to and including 100 tons; Fundex F-12 hydraulic pile rig

GROUP 3: Derrick barge pedestal mounted under 45 tons; Self-propelled boom-type lifting device 45 tons and under; Skid/scow piledriver, any tonnage; Truck crane or crawler, land or barge mounted 45 tons and under

GROUP 4: Assistant operator in lieu of assistant to engineer; Forklift, 10 tons and over; Heavy-duty repairperson/welder

GROUP 5: Deck engineer

GROUP 6: Deckhand; Fire tender

STEEL ERECTORS

GROUP 1: Crane over 100 tons; Derrick over 100 tons; Self-propelled boom-type lifting device over 100 tons

GROUP 2: Crane over 45 tons to 100 tons; Derrick under 100 tons; Self-propelled boom-type lifting device over 45 tons to 100 tons; Tower crane

GROUP 3: Crane, 45 tons and under; Self-propelled boom-type lifting device, 45 tons and under

GROUP 4: Chicago boom; Forklift, 10 tons and over; Heavy-duty repair person/welder

GROUP 5: Boom cat

--

TUNNEL AND UNDERGROUND WORK

GROUP 1-A: Tunnel bore machine operator, 20' diameter or more

GROUP 1: Heading shield operator; Heavy-duty repairperson;
Mucking machine (rubber tired, rail or track type); Raised
bore operator (tunnels); Tunnel mole bore operator

GROUP 2: Combination slusher and motor operator; Concrete
pump or pumpcrete gun; Power jumbo operator

GROUP 3: Drill doctor; Mine or shaft hoist

GROUP 4: Combination slurry mixer cleaner; Grouting Machine
operator; Motorman

GROUP 5: Bit Sharpener; Brakeman; Combination mixer and
compressor (gunite); Compressor operator; Oiler; Pump
operator; Slusher operator

FOOTNOTES:

Laborers working off or with or from bos'n chairs, swinging scaffolds, belts shall receive \$0.25 per hour above the applicable wage rate. This shall not apply to workers entitled to receive the wage rate set forth in Group 1-a below.

LABORER CLASSIFICATIONS

CONSTRUCTION SPECIALIST GROUP: Asphalt ironer and raker; Chainsaw; Laser beam in connection with laborers' work; Cast-in- place manhole form setter; Pressure pipelayer; Davis trencher - 300 or similar type (and all small trenchers); Blaster; Diamond driller; Multiple unit drill; Hydraulic drill

GROUP 1: Asphalt spreader boxes (all types); Barko, Wacker and similar type tampers; Buggymobile; Caulker, bander, pipewrapper, conduit layer, plastic pipelayer; Certified hazardous waste worker including Leade Abatement; Compactors of all types; Concrete and magnesite mixer, 1/2 yd. and under; Concrete pan work; Concrete sander; Concrete saw; Cribber and/or shoring; Cut granite curb setter; Dri-pak-it machine; Faller, logloader and buckler; Form raiser, slip forms; Green cutter; Headerboard, Hubsetter, aligner, by any method; High pressure blow pipe (1-1/2" or over, 100 lbs. pressure/over); Hydro seeder and similar type; Jackhammer operator; Jacking of pipe over 12 inches; Jackson and similar type compactor; Kettle tender, pot and worker applying asphalt, lay-kold, creosote, lime, caustic and similar type materials (applying means applying, dipping or handling of such materials); Lagging, sheeting, whaling, bracing, trenchjacking, lagging hammer; Magnesite, epoxyresin, fiberglass, mastic worker (wet or dry); No joint pipe and stripping of same, including repair of voids; Pavement breaker and spader, including tool grinder; Perma curb; Pipelayer (including grade checking in connection with pipelaying); Precast-manhole setter; Pressure pipe tester; Post hole digger, air, gas and electric; Power broom sweeper; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap stonepaver and rock-slinger, including placing of sacked concrete and/or sand (wet or dry) and gabions and similar type; Rotary scarifier or multiple head concrete chipping scarifier; Roto and Ditch Witch; Rototiller; Sandblaster, pot, gun, nozzle operators; Signalling and rigging; Tank cleaner; Tree climber; Turbo blaster; Vibrascreed, bull float in connection with laborers' work;

Vibrator; Hazardous waste worker (lead removal); Asbestos and mold removal worker

GROUP 1-a: Joy drill model TWM-2A; Gardner-Denver model DH143 and similar type drills; Track driller; Jack leg driller; Wagon driller; Mechanical drillers, all types regardless of type or method of power; Mechanical pipe layers, all types regardless of type or method of power; Blaster and powder; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (including drilling of same); Tree topper; Bit grinder

GROUP 1-b: Sewer cleaners shall receive \$4.00 per day above Group 1 wage rates. "Sewer cleaner" means any worker who handles or comes in contact with raw sewage in small diameter sewers. Those who work inside recently active, large diameter sewers, and all recently active sewer manholes shall receive \$5.00 per day above Group 1 wage rates.

GROUP 1-c: Burning and welding in connection with laborers' work; Synthetic thermoplastics and similar type welding

GROUP 1-d: Maintenance and repair track and road beds. All employees performing work covered herein shall receive \$.25 per hour above their regular rate for all work performed on underground structures not specifically covered herein. This paragraph shall not be construed to apply to work below ground level in open cut. It shall apply to cut and cover work of subway construction after the temporary cover has been placed.

GROUP 1-e: Work on and/or in bell hole footings and shafts thereof, and work on and in deep footings. (A deep footing is a hole 15 feet or more in depth.) In the event the depth of the footing is unknown at the commencement of excavation, and the final depth exceeds 15 feet, the deep footing wage rate would apply to all employees for each and every day worked on or in the excavation of the footing from the date of inception.

GROUP 1-f: Wire winding machine in connection with guniting or shot crete

GROUP 1-g, CONTRA COSTA COUNTY: Pipelayer (including grade checking in connection with pipelaying); Caulker; Bander; Pipewrapper; Conduit layer; Plastic pipe layer; Pressure pipe tester; No joint pipe and stripping of same, including repair of voids; Precast manhole setters, cast in place manhole form setters

GROUP 2: Asphalt shoveler; Cement dumper and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chute; Concrete chipping and grinding; Concrete laborer (wet or dry); Driller tender, chuck tender, nipper; Guinea chaser (stake), grout crew; High pressure nozzle, adductor; Hydraulic monitor (over 100 lbs. pressure); Loading and unloading, carrying and hauling of all rods and materials for use in reinforcing concrete

construction; Pittsburgh chipper and similar type brush shredders; Sloper; Single foot, hand-held, pneumatic tamper; All pneumatic, air, gas and electric tools not listed in Groups 1 through 1-f; Jacking of pipe - under 12 inches

GROUP 3: Construction laborers, including bridge and general laborer; Dump, load spotter; Flag person; Fire watcher; Fence erector; Guardrail erector; Gardener, horticultural and landscape laborer; Jetting; Limber, brush loader and piler; Pavement marker (button setter); Maintenance, repair track and road beds; Streetcar and railroad construction track laborer; Temporary air and water lines, Victaulic or similar; Tool room attendant (jobsite only)

GROUP 4: Final clean-up work of debris, grounds and building including but not limited to: street cleaner; cleaning and washing windows; brick cleaner (jobsite only); material cleaner (jobsite only). The classification "material cleaner" is to be utilized under the following conditions:

A: at demolition site for the salvage of the material.

B: at the conclusion of a job where the material is to be salvaged and stocked to be reused on another job.

C: for the cleaning of salvage material at the jobsite or temporary jobsite yard.

The material cleaner classification should not be used in the performance of "form stripping, cleaning and oiling and moving to the next point of erection".

GUNITE LABORER CLASSIFICATIONS

GROUP 1: Structural Nozzleman

GROUP 2: Nozzleman, Gunman, Potman, Groundman

GROUP 3: Reboundman

GROUP 4: Guniting laborer

WRECKING WORK LABORER CLASSIFICATIONS

GROUP 1: Skilled wrecker (removing and salvaging of sash, windows and materials)

GROUP 2: Semi-skilled wrecker (salvaging of other building materials)

pre-batch concrete mix trucks; Dumpster or similar type;
Slurry truck: Use dump truck yardage rate.
Heater planer; Asphalt burner; Scarifier burner; Industrial
lift truck (mechanical tailgate); Utility and clean-up
truck: Use appropriate rate for the power unit or the
equipment utilized.

TRUCK DRIVER CLASSIFICATIONS

GROUP 1: Dump trucks, under 6 yds.; Single unit flat rack (2-axle unit); Nipper truck (when flat rack truck is used appropriate flat rack shall apply); Concrete pump truck (when flat rack truck is used appropriate flat rack shall apply); Concrete pump machine; Fork lift and lift jitneys; Fuel and/or grease truck driver or fuel person; Snow buggy; Steam cleaning; Bus or personhaul driver; Escort or pilot car driver; Pickup truck; Teamster oiler/greaser and/or serviceperson; Hook tender (including loading and unloading); Team driver; Tool room attendant (refineries)

GROUP 2: Dump trucks, 6 yds. and under 8 yds.; Transit mixers, through 10 yds.; Water trucks, under 7,000 gals.; Jetting trucks, under 7,000 gals.; Single-unit flat rack (3-axle unit); Highbed heavy duty transport; Scissor truck; Rubber-tired muck car (not self-loaded); Rubber-tired truck jumbo; Winch truck and "A" frame drivers; Combination winch truck with hoist; Road oil truck or bootperson; Buggymobile; Ross, Hyster and similar straddle carriers; Small rubber-tired tractor

GROUP 3: Dump trucks, 8 yds. and including 24 yds.; Transit mixers, over 10 yds.; Water trucks, 7,000 gals. and over; Jetting trucks, 7,000 gals. and over; Vacuum trucks under 7500 gals. Trucks towing tilt bed or flat bed pull trailers; Lowbed heavy duty transport; Heavy duty transport tiller person; Self-propelled street sweeper with self-contained refuse bin; Boom truck - hydro-lift or Swedish type extension or retracting crane; P.B. or similar type self-loading truck; Tire repairperson; Combination bootperson and road oiler; Dry distribution truck (A bootperson when employed on such equipment, shall receive the rate specified for the classification of road oil trucks or bootperson); Ammonia nitrate distributor, driver and mixer; Snow Go and/or plow

GROUP 4: Dump trucks, over 25 yds. and under 65 yds.; Water pulls - DW 10's, 20's, 21's and other similar equipment when pulling Aqua/pak or water tank trailers; Helicopter pilots (when transporting men and materials); Lowbedk Heavy Duty Transport up to including 7 axles; DW10's, 20's, 21's and other similar Cat type, Terra Cobra, LeTourneau Pulls, Tournorocker, Euclid and similar type equipment when pulling fuel and/or grease tank trailers or other miscellaneous trailers; Vacuum Trucks 7500 gals and over and truck repairman

GROUP 5: Dump trucks, 65 yds. and over; Holland hauler; Low bed Heavy Duty Transport over 7 axles

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====
Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the

Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that

classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division

U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

TO: All Prospective Bidders

**SUBJECT: Addendum No. 2
Meyers Stream Environment Zone/ Erosion Control Project
Contract No. PW 16-31121, CIP No. 95179**

Submit proposals for this work with the understanding and full consideration of this addendum. The revisions declared in this addendum are essential parts of the Contract.

ITEM NO.	LOCATION, PAGE, OR DRAWING NO.	DESCRIPTION OF CHANGE
2.01	Notice to Bidders page N-1	Bidders are instructed to replace the bid opening date and time from May 25, 2017 at 2:00 PM to <u>May 25, 2017 at 4:30 PM.</u>
2.02	Draft Agreement pages C-12 and C-13, Proposal page P-5	Bidders are instructed to line out the Unit of Measure of EA for Bid Items 38 and 39 and replace it with <u>LF</u> in the Exhibit A, Contractor's Bid and Bid Price Schedule in the Draft Agreement (pages C-12 and C-13) and the Proposal Pay Items and Bid Price Schedule in the Proposal (page P-5).

Indicate receipt of this addendum by filling in the number of this addendum in the space provided on the signature page of the proposal.

Holders who have already mailed their proposal can contact Patty Scott at (530) 573-7900 (email: patricia.scott@edcgov.us) or Donald Palaroan at (530) 573-7920 (email: donaldo.palaroan@edcgov.us) to arrange return of their proposal.

Inform all suppliers and subcontractors as necessary.

The Department of Transportation is only sending this addendum by posting on QuestCDN's website at: <https://www.questcdn.com/>.

If you are not a Contract Documents Holder, but request a set of documents to bid on this project, you must comply with the requirements of this addendum when submitting your bid.

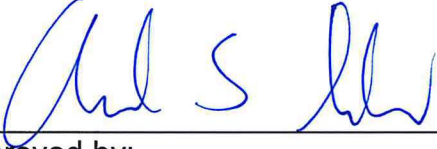

End of Addendum No. 2
