SENATE BILL

No. 1473

Introduced by Senator Calderon

February 21, 2008

An act to add Sections 18930.5, 18931.6, ~~and 18931.7~~ 18931.7, and 18938.3 to the Health and Safety Code, relating to building standards.

LEGISLATIVE COUNSEL'S DIGEST

SB 1473, as amended, Calderon. Building standards.

(1) The California Building Standards Law provides for the adoption of building standards by state agencies by requiring all state agencies that adopt or propose adoption of any building standard to submit the building standard to the California Building Standards Commission for approval or adoption.

This bill would require the commission to adopt, approve, codify, update, and publish green building standards for any occupancy for which no state agency has the authority or expertise to propose those standards.

This

The bill would require each city, county, or city and county to collect a fee from any applicant for a building permit, assessed at the rate of \$4 per \$100,000 in valuation, as determined by the local building official, with appropriate fractions thereof, but not less than \$1. The bill would authorize the city, county, or city and county to retain not more than 10% of the fees collected for related administrative costs and for code enforcement education, including certifications in the voluntary

construction inspector certification program. The bill would require the city, county, or city and county to transmit the remainder to the commission for deposit in the Building Standards Administration Special Revolving Fund which the bill would establish in the State Treasury. The bill would establish a state-mandated local program by imposing additional duties on local government.

The bill would require that all funds received by the commission under the California Building Standards Law be deposited in the fund and be available, upon appropriation, to the commission for expenditure in carrying out these provisions of existing law *and certain other provisions of existing law that relate to building standards*, with emphasis placed on the development, adoption, publication, updating, and educational efforts associated with green building standards.

The bill would authorize the commission and the Department of Housing and Community Development to use, as the basis for the California Building Standards Code, certain model codes adopted by the commission as the basis for the 2007 triennial edition of the California Building Standards Code.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.
