Article III

Compensation for Services: The initial annual compensation was set at \$3,086,492.62 for the Fiscal Year July 1, 2013 through June 30, 2014. The contract provided that an annual adjustment of the base rates and per diem rates would be made on July 1st of each fiscal year by the percentage increase of the medical index of the CPI-U San Francisco-Oakland Region from February to February and as published by the U.S. Bureau of Labor Statistics.

Because this index is no longer available, the parties have mutually agreed that the annual increase commencing upon execution of Amendment 3, and every July for the remainder of the contract, shall be 3.6%, resulting in annual not-to-exceed amounts for July 2015 through June 30, 2018 as follows:

B. Contractor Reimbursement over Liability Limits –

- As the designated Health Authority for the County of El Dorado Adult and Juvenile Facilities, Contractor shall ensure all Inmate/Ward Psychiatric or Medical hospitalization charges are paid pursuant to California Penal Code 4011.
- Except for those services covered under Medi-Cal, Contractor’s financial liability for medical or psychiatric inpatient episodes is limited to \$20,000.00 per episode per inmate of Ward. Such episodes are defined as “post admission” to a medical or psychiatric facility. Contractor shall be responsible for all costs not covered by Medi-Cal, up to \$20,000 per inpatient episode, per inmate or ward. Costs above this limitation are to be borne by the County. In the event Contractor pays in excess of \$20,000.00 for an inpatient episode, Contractor shall invoice County for the amount in excess of their \$20,000.00 liability and County shall reimburse Contractor that amount.
- The County is responsible for payment of medical care provided to detained persons pursuant to California Penal Code Section 4011 and CCR Title 15.
- The annual cost of medical care overruns cannot be anticipated, and as such, is not included in the Base Rate.

C. Invoices:

1. Base Rate Invoices: Contractor shall invoice for Base Rates on a monthly basis in increments of one-twelfth (1/12) of the total twelve (12) month Base Rate amount as adjusted for each respective contract year or as subsequently amended.

Contractor shall submit invoices to County for Base Rate payments by the first of the month preceding the month in which services are to be provided. For example, Contractor shall submit an invoice by January 1 for services that will be provided during the month of February.

Monthly Base Rates are established using the Average Daily Population (ADP) statistics maintained by the Facilities and reported to Contractor by the Facilities. For the purpose of this Agreement, the base ADP for all four Facilities is 426. The ADP is averaged for each quarter; for any quarter that exceeds the base ADP, a Per Diem charge shall be calculated and invoiced by Contractor.

2. Overrun invoices: Contractor shall submit invoices for Overruns, if any, for amounts paid by Contractor over Contractor Financial Liability Limit with regularly submitted Monthly Base Rate invoices. Contractor shall submit documentation supporting amounts exceeding Contractor Financial Liability Limit with Overrun invoice. Failure to provide supporting documentation may result in a delay in processing payment.
3. Preferred Provider Organization (PPO) Discount: Contractor shall provide County with access to its Preferred Provider Organization (PPO) discount. County will reimburse Contractor for any processing fees related to the use of that PPO discount, which shall not exceed \$5,000.00 annually.
4. Per Diem Invoices: Effective upon execution of Amendment 3, a quarterly Per Diem charge of \$3.80 as adjusted for each respective contract year or as subsequently amended, will be paid for a combined quarterly average Inmate and Ward population for all facilities in excess of 426. Per Diem is intended to cover only variable costs. If the population significantly exceeds the base ADP for an extended period and additional staffing is required, the cost for additional staff must be negotiated separately.

Per Diem payments, if any, shall be billed separately by Contractor on a quarterly basis. Payments to Contractor shall be made by County within forty-five (45) days following County's receipt and approval of original itemized invoice(s) identifying the period being billed and shall be in accordance with the total Not-to-Exceed amounts as described herein.

D. **Out of County Inmates/Wards:** For Inmates or Wards being held by County on behalf of another governmental agency, Contractor’s financial liability of \$20,000 for inpatient episodes may be waived by County on a case-by-case basis provided County has a written contractual agreement in place with said governmental agency requiring that agency to pay all costs associated with medical or psychiatric inpatient episodes for such an Inmate or Ward held at a facility. Absent such agreement, Contractor’s financial liability of \$20,000 per Inmate or Ward, per episode, shall apply. Contractor shall identify any inmates who are the responsibility of another County and provide those invoices to the County of El Dorado Sheriff’s Office, with a copy to the Health and Human Services Agency Financial Unit, for submission to the County of origin for payment.

Contractor shall provide third party payer information to off-site medical or psychiatric providers when such information is available. Once the provider has exhausted all reasonable attempts at collection, such costs shall become the responsibility of Contractor.

E. **Human Immunodeficiency Virus (HIV) or Autoimmune Deficiency Syndrome (AIDS) Pharmaceutical Limit:** Contractor’s financial liability for HIV or AIDS medications is limited to \$10,000.00 aggregate cost each fiscal year of this Agreement. In the event Contractor reaches the maximum obligation of \$10,000 for HIV or AIDS medications, Contractor shall invoice County for the amount in excess of their \$10,000 liability and County shall reimburse Contractor that amount. Prior to invoicing County for HIV or AIDS medications in excess of the \$10,000 aggregate liability, Contractor shall provide itemized listing of medications paid resulting in the maximum obligation. Contractor and County agree to identify and utilize all available HIV/AIDS medication funding sources for each Inmate or Ward prior to assuming responsibility for providing said medications.

F. **Catastrophic Insurance Claims Processing:** Contractor acknowledges County may obtain a Catastrophic Insurance Policy for medical care in the jail, and agrees to assist County in the processing of claims, including but not limited to, timely notification of County that there has been admission of an Inmate or Ward to an outside facility, and gathering of information required for submission of the claim.
