Dear El Dorado County Planning Commission,

I am writing in support of the construction of new wireless communications facilities in El Dorado County.

The proposed facilities will bring high speed internet to our communities and will also improve wireless coverage for rural homes and businesses in El Dorado County.

The new broadband internet technology that will open up new possibilities for tech businesses and consumers in El Dorado County's rural communities.

The improved wireless coverage will provide an extremely valuable service to those who live, travel, and do business in El Dorado County. It will give people the ability to call for emergency services in the event of an accident, the ability to communicate with employees or clients outside of the office, and the ability to communicate with family members.

Regards,

Mary Alderink
935 Woodridge Rd
Placerville, CA 95667

Dear El Dorado County Planning Commission,

I am writing in support of the construction of new wireless communications facilities in El Dorado County.

Wireless and high speed broadband has many positive benefits for vital institutions like schools, hospitals and police and fire departments, and residents. New infrastructure delivers community benefits including enhanced public safety, educational access, health care and more.

The approval of this wireless communications facility will help increase network coverage and improve call quality, including emergency response services to improve public safety.

I ask for your support of the proposed new wireless communications facility in El Dorado County.

Sincerely,

Allison Saefong
