Dear El Dorado County Clerk of the Board,

I am writing in support of the construction of new wireless communications facilities in El Dorado County.

Wireless and high speed broadband has many positive benefits for vital institutions like schools, hospitals and police and fire departments, and residents. New infrastructure delivers community benefits including enhanced public safety, educational access, health care and more.

The approval of this wireless communications facility will help increase network coverage and improve call quality, including emergency response services to improve public safety.

I ask for your support of the proposed new wireless communications facility in El Dorado County.

Regards,

Diana Mittelberger
