Supervisors:

I am writing to make you aware of my support and ask for your support of the operation of full-size Placerville & Sacramento Valley Railroad trains on the Placerville Branch in El Dorado County.

These short-line railroads are an important part of this region's rich railroad history and allowing operation of full-size trains will have an enormous impact on their efforts to preserve this treasure and keep the trains running.

I don't know if you have personally experienced the thrill of the clickety-clack on this railroad but if you haven't you are missing out. I wish I could somehow convey with my words the look on the smiling faces of all my grandchildren who have taken many rides on these local rails thanks to PSSVR and its dedicated volunteers. My wife and I love the breakfast rides to Latrobe and long for the opportunity for longer rides, even to Placerville where we love to shop and eat. Having seen the impact of these short-lines in other parts of the country there is definitely a positive economic impact. People will drive for miles to ride trains.

I ask that you allow this railroad to continue to provide those smiles and experiences to generations to come. Once they are gone - they are gone forever and will be but fleeting memories and some faded photographs.

As my five-year old grandson Grant would say - keep the Choo-Choos running!

Thanks for your consideration.

Ted

Just wanted you to know I fully support allowing the Placerville & Sacramento Valley Railroad to operate when you pass item 18-1077. Not only will passage allow and encourage visitors to El Dorado County, it will bring new \$\$\$ here.

Please approve the operating license as the first step to bringing the trains to El Dorado County.

Thanks for the consideration/

Bob
