## **Memo**

Date: November 5, 2018

To: Parks and Recreation Commission

From: Vickie Sanders, Parks Manager

RE: **Agenda Item #18-1751**

A handwritten signature in cursive script, appearing to read "Vickie Sanders", is written over the "From:" line and extends into the "RE:" line.

---

Today's agenda item #18-1751 has many different pieces to it. The trails community has not had an opportunity to review, digest and discuss the concerns they have with some of the elements. I feel we have been working together in a very cooperative manner and moving forward together.

I recommend that you hear the item which will give Mary Cory, Museum Administrator an opportunity to introduce the projects. But I do recommend that you do not approve any of the items at this time and continue this item until January 2019. I suggest an Ad-Hoc committee or that you recommend staff and I work with the various interest groups to vet the projects and bring this item back to you in January 2019. We all want this to go to the Board of Supervisors with full support.
